## MOVE IT 25 system

**EN** The sleek, elegant MOVE IT 25 system has revolutionised low-voltage track systems. The tool-free magnetic mounting of spotlights, decorative, or linear insets allows flexible, ever-new combinations. The various mounting options offer even more freedom: at two heights each, as trimless recessed and surface-mounted for wall or ceiling mounting, and suspended with a direct or direct / indirect light component. The individual profiles can be interconnected with each other, or linked via the CORNER, CURVE or NODE Connector elements. This allows for a variety of creative ceiling patterns. Square or triangular acoustic elements that can be optionally integrated additionally create balanced room acoustics.

**ES** Sencillo y elegante, el sistema MOVE IT 25 ha revolucionado los sistemas de carril de baja tensión: la fijación magnética y sin herramientas de proyectores y elementos decorativos o lineales ofrece posibilidades de combinación flexibles. Aun más libertad ofrecen las distintas versiones de montaje en dos alturas para el montaje empotrado o de superficie en pared o techo sin marco, o suspendido con luz directa o de luz directa / indirecta. Los distintos perfiles pueden conectarse unos con otros mediante los elementos CORNER, CURVE o NODE Connector. Esto hace posible patrones de techo creativos y variados. Unos elementos acústicos cuadrados o triangulares de integración opcional crean además una acústica ambiental óptima.

## Colour variety

**EN** MOVE IT profiles are available in the standard colours black, white, and gold. Further colour variations are also available, granting your project maximum design freedom. You can learn more about our colour palette at [xal.com/colours](http://xal.com/colours).

**ES** Los perfiles MOVE IT están disponibles en diversos colores estándar. Existe la posibilidad de utilizar una amplia paleta de colores opcionales, lo que le proporciona la máxima libertad de diseño para su proyecto. Hallará más información sobre nuestra paleta de colores en [xal.com/colours](http://xal.com/colours).

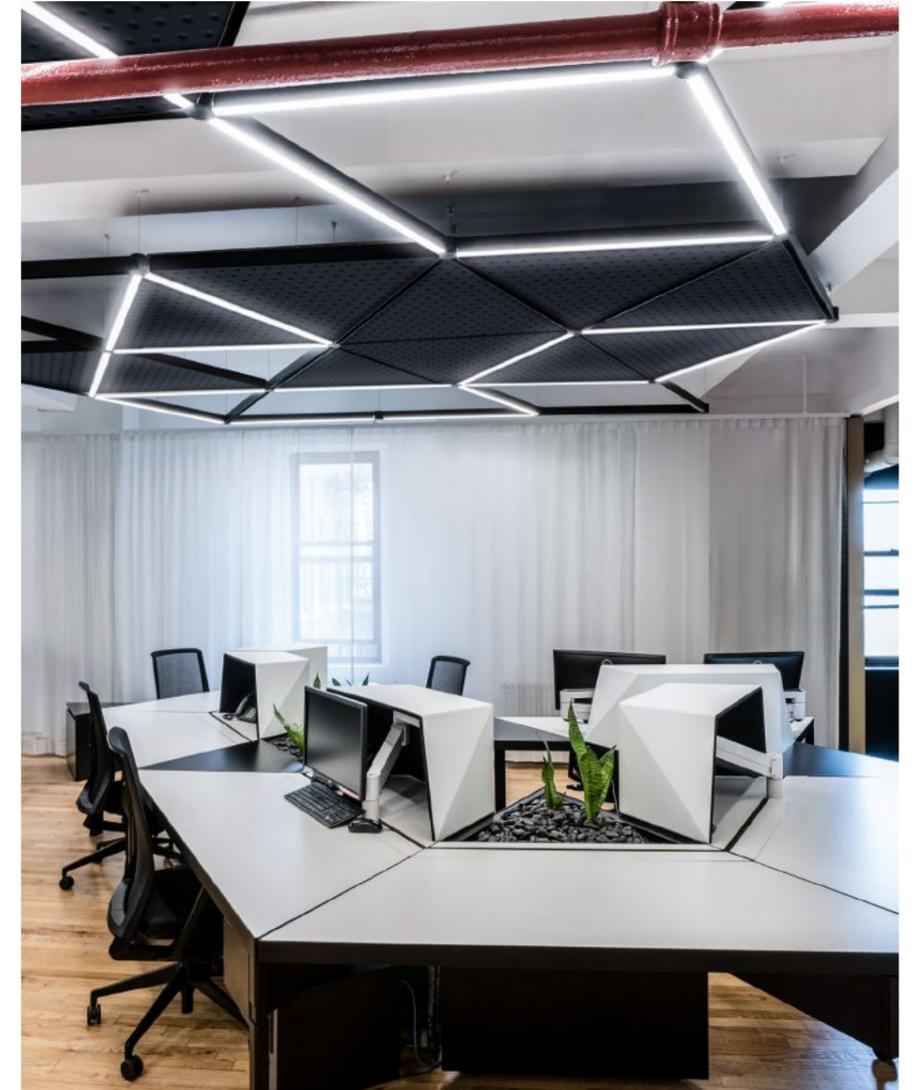

[xal.com/colours](http://xal.com/colours)

## Individual grids & room acoustics

**EN** The NODE Connector lets you create different ceiling patterns from up to six MOVE IT 25 profiles per node. Attractive geometric shapes are created by connecting the profiles at a 60° or 90° angle. Create seamless 90° corners with a special corner connector. Simply extend the MOVE IT Suspended System with triangular and square acoustic elements for optimised room acoustics. Curved elements and special corner connectors that are rotated 35° to the left and right provide even more design freedom.

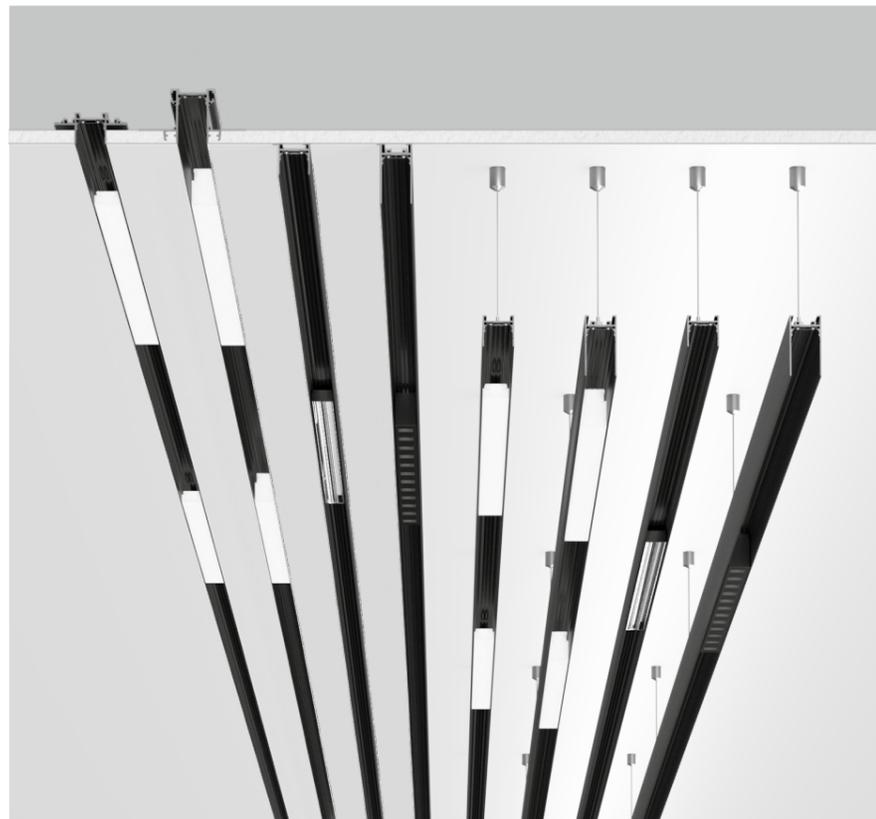

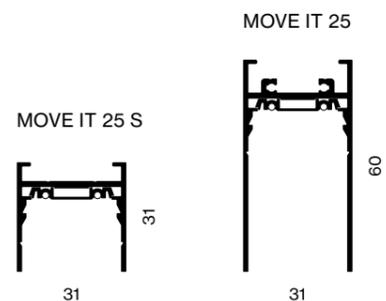

**ES** NODE Connector le permite crear distintos patrones de techo con hasta seis perfiles MOVE IT 25 por nodo. Conectando los perfiles en un ángulo de 60° o 90° se obtienen atractivas formas geométricas. Para una mayor optimización de la acústica ambiental, el sistema MOVE IT Suspended puede ampliarse sencillamente con elementos acústicos triangulares o cuadrados. Para una mayor libertad de diseño pueden utilizarse elementos curvos y conectores de esquinas especiales que pueden girarse 35° a izquierda y a derecha.

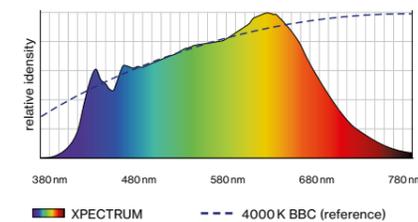

## Mounting options

**EN** The slim, elegant MOVE IT 25 system offers a wide variety of installation options: as a trimless recessed or surface-mounted variant for wall or ceiling mounting and suspended at two depths. The direct/indirect variant provides additional homogeneous ceiling illumination.

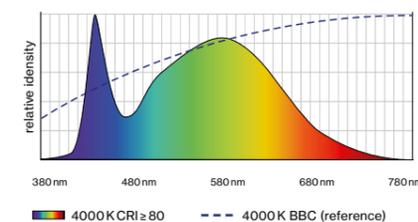

**ES** El esbelto y elegante sistema MOVE IT 25 ofrece una gran variedad de posibilidades de montaje, con versiones empotradas o de superficie sin marco para el montaje en pared o techo y otra de suspensión en dos alturas de carril diferentes. La versión Direct/Indirect garantiza una iluminación homogénea adicional del techo.

## XPECTRUM LED

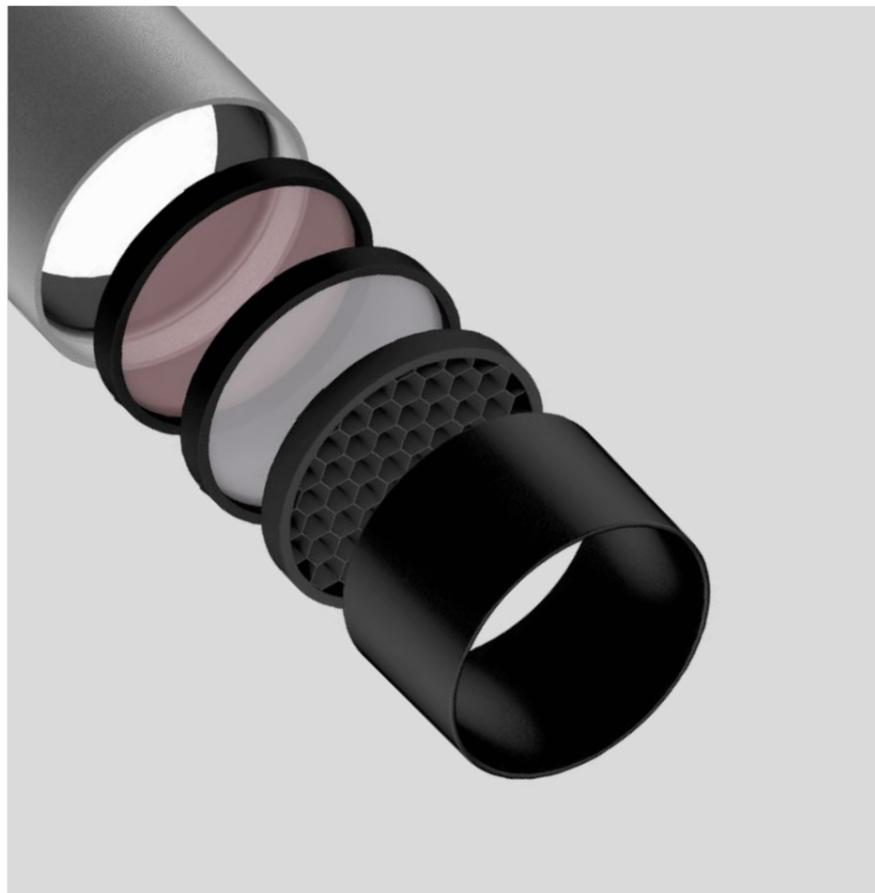

## Commercially available LED 4000K

## Full-spectrum LED

**EN** XAL's new XPECTRUM LEDs deliver healthy, biologically effective light. The reduced blue light and increased cyan values reduce the blue light hazard for the eye to daylight-equivalent levels. The resulting non-visual, so-called melanopic light effect, improves concentration and increases sleep quality. The excellent colour rendering of IES TM 30-15  $R_i = 98$  and  $R_g = 101$  further helps visual comfort.

**ES** El nuevo LED XPECTRUM de XAL ofrece una luz saludable con efectos biológicos. La menor proporción de luz azul y el aumento de los valores de cian minimizan el riesgo de la incidencia de luz azul en el ojo, manteniéndola a un nivel similar al presente en la luz natural. El efecto no visible resultante, denominado efecto melanópico, fomenta la concentración y mejora la calidad del sueño. Además, su excelente reproducción cromática –con índices  $R_i = 98$  y  $R_g = 101$  según la norma IES TM-30-15– garantiza una mayor comodidad visual.

## Optical accessories

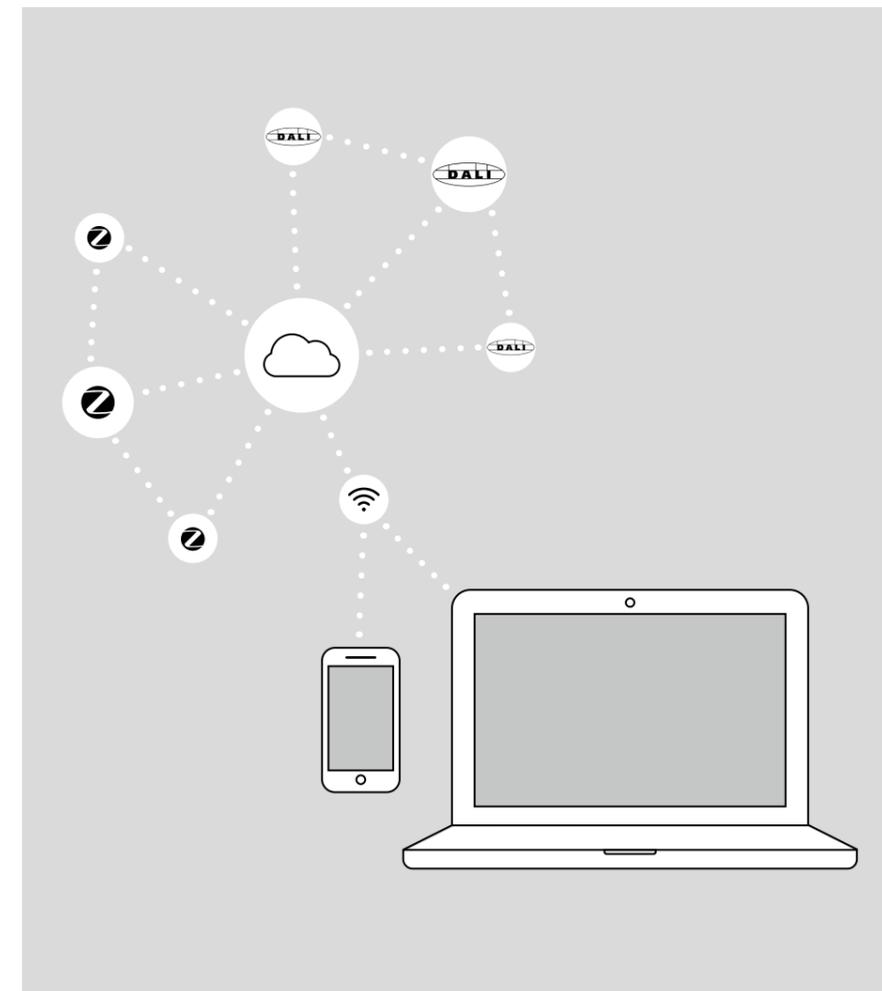

**EN** Use a wide range of optical accessories to adapt spotlights for special applications. The optical light accessories can be attached or removed in one easy step and provide glare-free light at any point.

**ES** Utilice accesorios ópticos para adaptar los proyectores a campos de aplicación especiales. Los accesorios ópticos pueden ponerse y quitarse con total facilidad y garantizan una luz exenta de deslumbramiento en cualquier lugar.

## Control options

**EN** MOVE IT Insets are available with DALI-2 and can be controlled individually. Configuration and control are simply done via DALI. As the open DALI communication standard is fully supported, all compatible luminaires can be easily integrated into the system. The Wireless-to-DALI Inset enables wireless control of DALI luminaire systems by using a communication module.

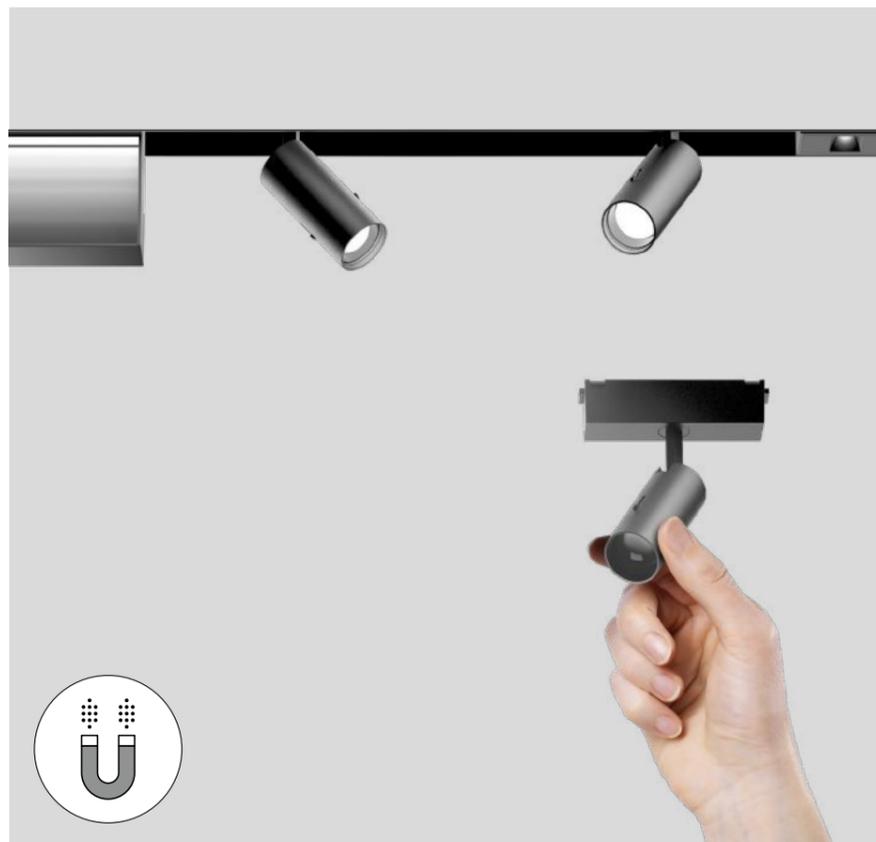

**ES** Los insertos MOVE IT están disponibles con DALI-2 y pueden controlarse individualmente. La configuración y el control se efectúan fácilmente a través de DALI. Ya que el sistema admite totalmente el uso del estándar de comunicación abierto DALI, todas las luminarias compatibles pueden integrarse en él con facilidad. El inserto "Wireless to DALI" posibilita el control sin cable de sistemas de luminarias DALI utilizando un módulo de comunicación.

## Magnetic attachment

**EN** MOVE IT Insets are mounted without tools and magnetically fixed within the profile. They can, therefore, be adjusted and adapted according to the lighting requirements with just one movement.

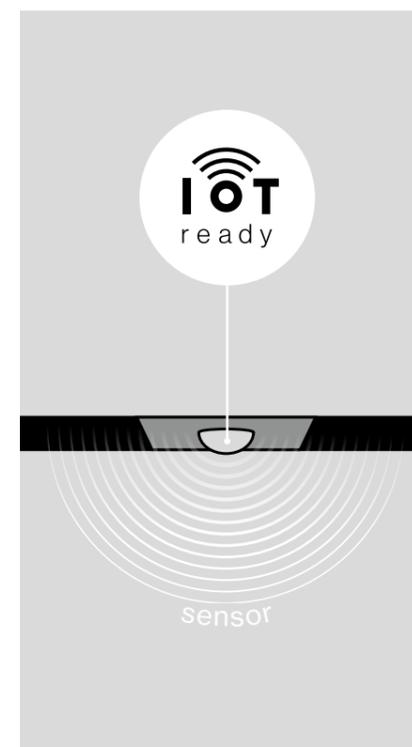

**ES** Los elementos en el MOVE IT se montan sin herramientas y se fijan magnéticamente en el interior del perfil. Esto les permite ajustarse y adaptarse con total facilidad según los requisitos de la iluminación.

## IoT ready

**EN** IoT ready refers to the possibility of equipping luminaires with smart sensor technology. You receive valuable information, such as your lighting system's energy consumption or your rooms' utilisation over the day. You can set shut-off delay times and brightness values or plan time-controlled light sequences. The sensor is magnetically inserted into the track system like a spotlight and can be individually configured without restriction by existing standards.

**ES** "IoT ready" indica la posibilidad de equipar a las luminarias con sensores inteligentes. Esto le permitirá obtener información valiosa, tal como el consumo de energía de su sistema de iluminación o el grado de utilización de las salas en el transcurso del día. También es posible establecer tiempos de desconexión y valores de luminosidad, así como programar transiciones luminosas reguladas por temporizador. El sensor se fija magnéticamente al sistema de carriles como un foco, y puede configurarse de forma totalmente individual sin ningún tipo de restricciones por estándares existentes.

**EN** Highly effective acoustic element made of self-supporting, recycled PET felt; direct sound is absorbed by the front-mounted fleece, sound reflected from the ceiling by an additional, rear-mounted fleece; this creates high acoustic performance; for installation in the MOVE IT 25 suspended system composed of node connectors and 1220 mm profiles

**ES** Elemento acústico de alta eficacia fabricado de fieltro PET reciclado y autoportante; absorción del ruido directo por el vellón delantero, así como absorción del ruido reflejado por el techo mediante un vellón adicional trasero; con ello gran rendimiento acústico; para la integración en el sistema suspendido MOVE IT 25, compuesto de uniones y perfiles de 1220 mm de largo

# Office on track

## MOVE IT 45 system

**EN** MOVE IT 45 offers glare-free office lighting with the flexibility of a track system. It is available as a suspended version, or as a recessed or surface-mounted variant for wall or ceiling mounting. Indirect light for homogeneous ceiling illumination is available as an option. The profiles are connected using corner elements or NODE connectors. Spotlights, linear office insets, and decorative luminaires are installed in the system without tools and can be flexibly adapted to changes in the room. With just one track system and the appropriate insets, completely different areas in the office – such as workstations, meeting rooms, and corridors – can be individually illuminated and controlled. Square acoustic elements that can be optionally integrated additionally create balanced room acoustics.

**ES** Iluminación de oficina libre de deslumbramientos, tan flexible como un sistema de carril: MOVE IT 45 está disponible en variantes empotradas o de superficie para el montaje en pared o techo y también como versión suspendida, dotadas opcionalmente con una proporción de luz indirecta para una iluminación homogénea del techo. Los perfiles se unen entre sí mediante conectores NODE. Proyector, elementos de oficina lineales y luminarias decorativas pueden montarse en el sistema sin necesidad de herramientas y adaptarse con flexibilidad a las modificaciones del espacio. Con un solo sistema de carril y los elementos adecuados es posible iluminar y controlar diversas zonas de la oficina –tales como los puestos de trabajo, las salas de reunión y los pasillos– de un modo totalmente individualizado. Unos elementos acústicos cuadrados de integración opcional generan además una acústica ambiental equilibrada.

## Colour variety

EN MOVE IT profiles are available in various standard colours. Further colour variations are also available, granting your project maximum design freedom. You can learn more about our colour palette at [xal.com/colours](http://xal.com/colours).

ES Los perfiles MOVE IT están disponibles en diversos colores estándar. Además existen otras variantes de color disponibles, lo que le proporciona la máxima libertad de diseño para su proyecto. Hallará más información sobre nuestra paleta de colores en [xal.com/colours](http://xal.com/colours).

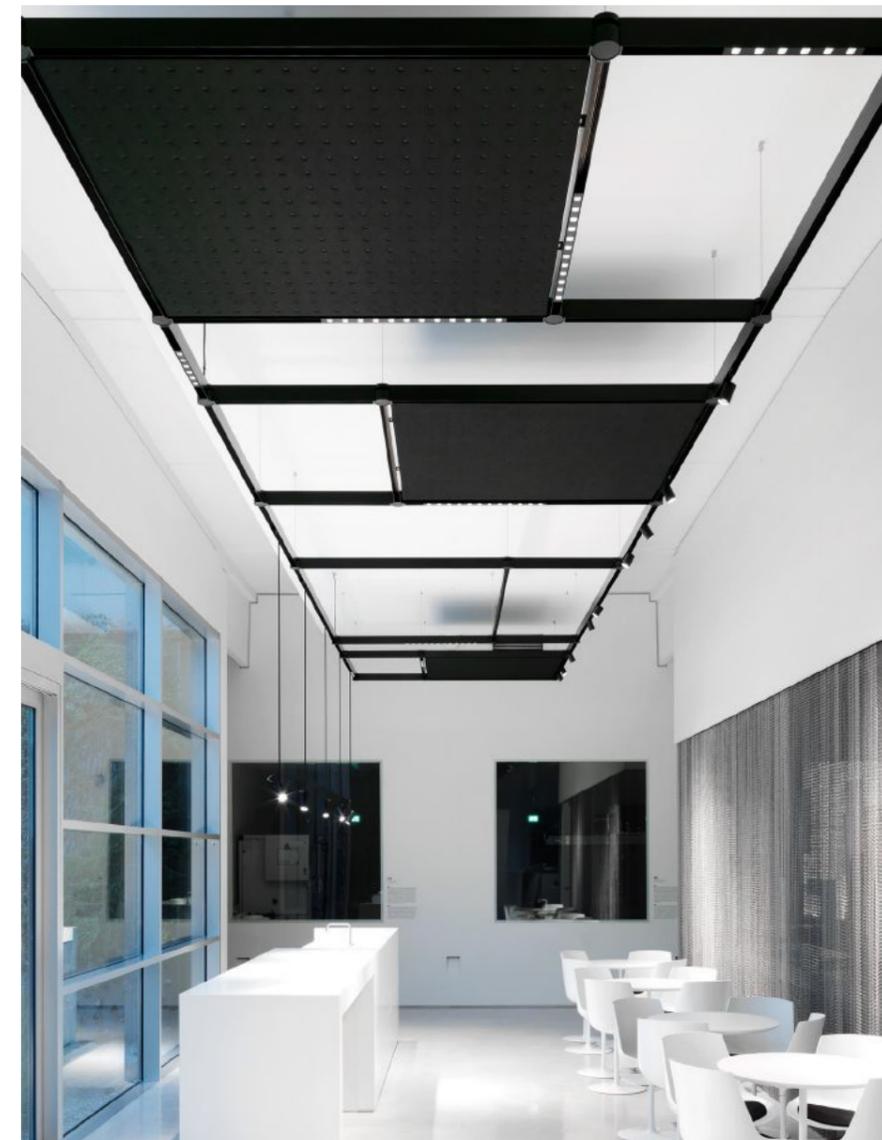

[xal.com/colours](http://xal.com/colours)

## Individual grids & room acoustics

EN The NODE Connector lets you create different ceiling patterns from up to four MOVE IT 45 profiles per node. Create attractive geometric shapes by connecting the profiles at a 90° angle. Special corner connectors that are rotated 35° to the left and right provide even more design freedom. Simply extend the MOVE IT Suspended System with square acoustic elements for optimised room acoustics.

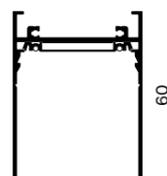

ES NODE Connector le permite crear distintos patrones de techo con hasta cuatro perfiles MOVE IT 45 por nodo. Conectando los perfiles en un ángulo de 90° se obtienen atractivas formas geométricas. Para una mayor libertad de diseño pueden utilizarse conectores de esquinas especiales que pueden girarse 35° a izquierda y a derecha. Para una mayor optimización de la acústica ambiental, el sistema MOVE IT Suspended puede ampliarse sencillamente con elementos acústicos cuadrados.

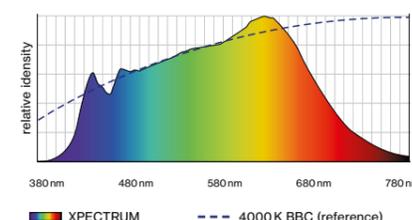

## Mounting options

EN The elegant MOVE IT 45 System offers a wide variety of installation options: as a trimless recessed or surface-mounted variant for wall or ceiling mounting and suspended. The suspended direct/indirect variant provides additional homogeneous ceiling illumination.

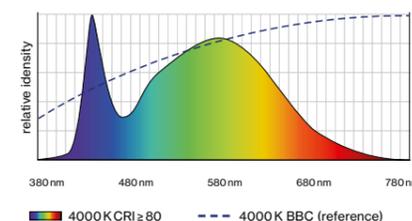

ES El elegante sistema MOVE IT 45 ofrece una gran variedad de posibilidades de montaje, con versiones empotradas y de superficie sin marco para el montaje en pared o techo y otra de suspensión. La versión de suspensión Direct/Indirect garantiza una iluminación homogénea adicional del techo.

## XPECTRUM LED

## Commercially available LED 4000K

## Full-spectrum LED

EN XAL's new XPECTRUM LEDs deliver healthy, biologically effective light. The reduced blue light and increased cyan values reduce the blue light hazard for the eye to daylight-equivalent levels. The resulting non-visual, so-called melanopic light effect, improves concentration and increases sleep quality. The excellent colour rendering of IES TM 30-15  $R_t = 98$  and  $R_g = 101$  further helps visual comfort. These LEDs are available for different MOVE IT System insets and indirect insets.

ES El nuevo LED XPECTRUM de XAL ofrece una luz saludable con efectos biológicos. La menor proporción de luz azul y el aumento de los valores de cian minimizan el riesgo de la incidencia de luz azul en el ojo, manteniéndola a un nivel similar al presente en la luz natural. El efecto no visible resultante, denominado efecto melanópico, fomenta la concentración y mejora la calidad del sueño. Además, su excelente reproducción cromática –con índices  $R_t = 98$  y  $R_g = 101$  según la norma IES TM-30-15– garantiza una mayor comodidad visual. Este LED se encuentra a su disposición para el uso con distintos insertos y elementos de luz indirecta del sistema MOVE IT.

## Variety of office reflector insets

**EN** Office lighting faces various requirements, ranging from standards for workplace lighting ( $UGR \leq 19$ ), homogeneous basic illumination, to spot accentuation. Changing the design or use of office space also requires a flexible lighting solution. MOVE IT 45 responds to this with a wide range of lighting insets that are easily installed and replaced in the track system.

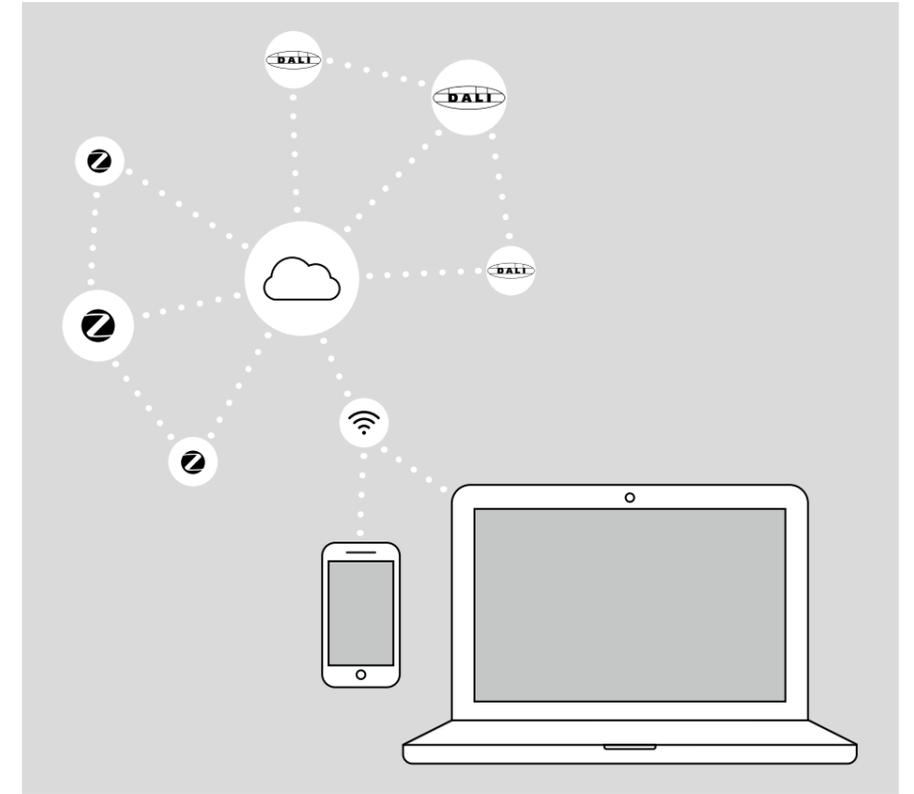

**ES** La iluminación de oficinas está sometida a requisitos diversos que abarcan desde una iluminación de puestos de trabajo adaptada a la normativa ( $UGR \leq 19$ ) y un alumbrado general homogéneo, hasta la acentuación mediante proyectores. Las diversas distribuciones o usos de las oficinas también hacen necesaria una solución de iluminación flexible. A esto responde MOVE IT 45 con unos elementos de iluminación variados que pueden montarse en el sistema de carriles y sustituirse fácilmente.

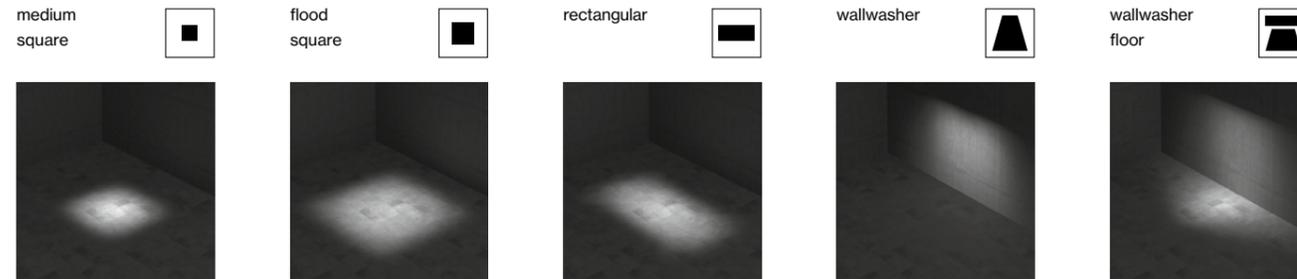

## Control options

**EN** MOVE IT Insets are available with DALI-2 and can be controlled individually. Configuration and control are simply done via DALI. As the open DALI communication standard is fully supported, all compatible luminaires can be easily integrated into the system. The Wireless-to-DALI Inset enables wireless control of DALI luminaire systems by using a communication module.

**ES** Los insertos MOVE IT están disponibles con DALI-2 y pueden controlarse individualmente. La configuración y el control se efectúan fácilmente a través de DALI. Ya que el sistema admite totalmente el uso del estándar de comunicación abierto DALI, todas las luminarias compatibles pueden integrarse en él con facilidad. El inserto "Wireless to DALI" posibilita el control sin cable de sistemas de luminarias DALI utilizando un módulo de comunicación.

### OPAL

## IoT ready

**EN** IoT ready refers to the possibility of equipping luminaires with smart sensor technology. You receive valuable information, such as your lighting system's energy consumption or your rooms' utilisation over the day. You can set shut-off delay times and brightness values or plan time-controlled light sequences. The sensor is magnetically inserted into the track system like a spotlight and can be individually configured without restriction by existing standards.

**ES** "IoT ready" indica la posibilidad de equipar a las luminarias con sensores inteligentes. Esto le permitirá obtener información valiosa, tal como el consumo de energía de su sistema de iluminación o el grado de utilización de las salas en el transcurso del día. También es posible establecer tiempos de desconexión y valores de luminosidad, así como programar transiciones luminosas reguladas por temporizador. El sensor se fija magnéticamente al sistema de carriles como un foco, y puede configurarse de forma totalmente individual sin ningún tipo de restricciones por estándares existentes.

## Magnetic attachment

**EN** MOVE IT Insets are mounted without tools and magnetically fixed within the profile. They can, therefore, be adjusted and adapted according to the lighting requirements with just one movement.

**ES** Los elementos en el MOVE IT se montan sin herramientas y se fijan magnéticamente en el interior del perfil. Esto les permite ajustarse y adaptarse con total facilidad según los requisitos de la iluminación.

## MOVE IT 45 system

trimless / surface / suspended

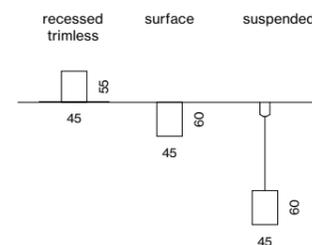

**EN** Extruded aluminium profile with 45 mm width groove; for trimless installation in plasterboard ceilings (wall or ceiling mounting) with 12.5 mm ceiling thickness; or for wall-/ceiling surface mounting or suspended mounting (cable suspension, height adjustment without tools, incl. black feed); optional with indirect light component for additional accentuation of the ceiling; for lighting systems, 90° angle connectors for flexible system design; node connectors, up to 4 profile connection options; with power track profile for take off of supply voltage and DALI signal; surf. anod. or powder coated; insets can be installed flexibly and without tools by means of magnetic holders + locking; sound absorbing accessories available

**ES** Perfil de alum. extruido con ancho de junta de 45 mm; para encastré sin bordes en planchas de yeso laminado (montaje pared o techo) de 12,5 mm de espesor; o para montaje en pared/techo o suspendido (suspensión por cable, ajuste de altura sin herramienta, cable de alim. negro incluido); componentes de luz indir. opcionales para realce adicional del techo; para sistemas de iluminación, conect. angul. de 90° para la configur. flexible del sistema; conector de nodos, conex. de hasta 4 perfiles; con perfil de carril electrif. para toma de suministro eléct. y señal DALI; superficie anodiz. o recub. de pintura en polvo; montaje flexible y sin herra. de los elem. de luz mediante un soporte magnético con bloqueo; accesorios absorb. del ruido disponibles

\*NODE connector + track 1220mm

### ACOUSTIC EXAMPLES

## ACOUSTIC elements

accessory 45

**EN** Highly effective acoustic element made of self-supporting, recycled PET felt; direct sound is absorbed by the front-mounted fleece, sound reflected from the ceiling by an additional, rear-mounted fleece; this creates high acoustic performance; for installation in the MOVE IT 45 suspended system composed of node connectors and 1220 mm profiles

**ES** Elemento acústico de alta eficacia fabricado de fieltro PET reciclado y autoportante; absorción del ruido directo por el vellón delantero, así como absorción del ruido reflejado por el techo mediante un vellón adicional trasero; con ello gran rendimiento acústico; para la integración en el sistema suspendido MOVE IT 45, compuesto de uniones y perfiles de 1220 mm de largo

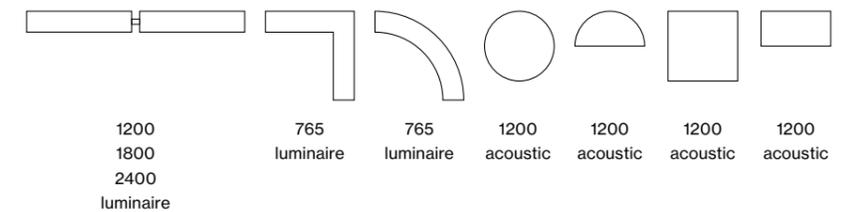

# Ultra-slim office series

## TASK system

**EN** In addition to impressive flexibility, the ultra-slim TASK series meets all requirements of modern office lighting. Innovative technology and highly efficient LEDs meet minimalistic design. Thanks to its microprismatic cover, TASK provides bright and glare-minimised work light. The product family with a shared sleek design is impressive: TASK can be expanded into a system via a click mechanism. The optional indirect light delivers pleasant ceiling illumination. Additional built-in sensors allow the TASK S system to adapt to motion and ambient brightness. The system can be expanded with optional acoustic elements to optimise room acoustics.

**ES** La serie ultraesbelta TASK satisface todos los requisitos de la moderna iluminación de oficinas, además de ofrecer una impresionante flexibilidad. Una tecnología innovadora y unos LED extremadamente eficientes se combinan con un diseño minimalista. Gracias a su difusor microprismático, TASK emite una luz apta para espacios de trabajo y con un deslumbramiento mínimo. Esta familia de productos cautiva por su diseño esbelto y uniforme, pudiendo ampliarse con otros componentes en un sistema mediante un mecanismo de clic. La luz indirecta opcional proporciona una iluminación de techo agradable. El sistema TASK S y la luminaria de pie incorporan sensores de movimiento y de la luminosidad del entorno, para obtener una acústica ambiental óptima, el sistema puede ampliarse con elementos acústicos opcionales.

## Ultra-slim and versatile

EN TASK combines an ultra-slim design with innovative lighting technology. These include, in particular, an LGP (Light Guiding Prism), which directs the laterally coupled light from highly efficient LEDs upwards and downwards. It creates a pleasant room atmosphere through a balanced relationship between direct and indirect light.

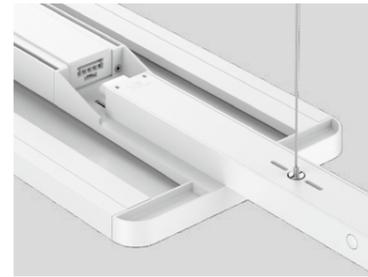

ES TASK combina un diseño ultrafino con una tecnología de iluminación innovadora. A esta pertenece, entre otros elementos, un prisma LGP (Light Guiding Prism) encargado de guiar hacia arriba y hacia abajo la luz acoplada lateralmente procedente de LED ultraeficientes. Esto crea una relación equilibrada entre la luz directa y la indirecta, que da como resultado una atmósfera interior agradable.

## Simple click

EN Design freedom thanks to plug-in connections. Each TASK S system luminaire can be rearranged, combined, and electrically connected with just one click and without any tools. Whether office extension or interior redesign, this lighting system can handle any change.

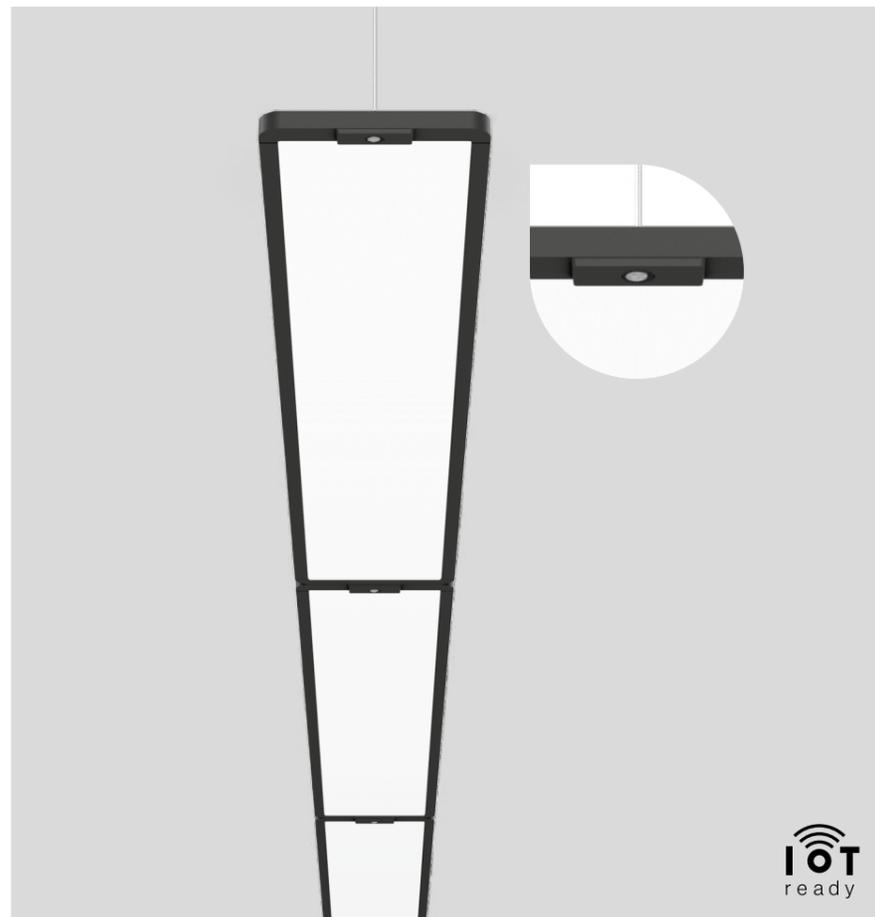

ES Libertad de configuración gracias a conexiones electromecánicas: cada luminaria de un sistema TASK S puede reordenarse, combinarse y conectarse eléctricamente sin necesidad de herramientas con un solo clic. Y, en caso de que se deba ampliar la oficina o rediseñar el espacio existente, el sistema de iluminación es capaz de adaptarse fácilmente a cualquier modificación.

## Pleasant room acoustics

EN In addition to lighting, pleasant room acoustics have an impact on job satisfaction. Acoustic element panels in different colours and made of 60% recycled PET complement the TASK series and reduce background noise around the office. For focused, productive work.

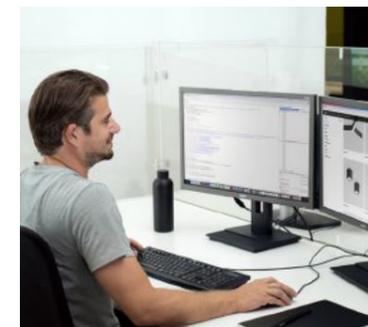

ES Además de la iluminación, una acústica ambiental agradable influye en nuestra confortabilidad en el lugar de trabajo. Unos paneles acústicos en distintos colores fabricados de un 60% de PET reciclado completan la serie TASK y reducen el ruido ambiental en la oficina. Para un trabajo concentrado y productivo.

## Advanced sensor technology

EN The TASK S system luminaire adapts to daylight and room activity. Integrated motion sensors automatically dim the lighting when no one is in the room. Smart movement sensors enable the light intensity to be adjusted to the ambient brightness. This saves energy and creates a dynamic, natural lighting atmosphere.

ES La luminaria de sistema TASK S se adapta a la luz del día y a la actividad de la sala. Los sensores de movimiento integrados atenúan automáticamente la iluminación cuando la sala está vacía. Unos sensores Daylight inteligentes permiten adaptar la intensidad luminosa a la luminosidad del entorno. Esto ahorra energía y crea un ambiente luminoso dinámico y natural.

## Screen-work friendly

EN TASK guarantees standard-compliant illumination of workplaces with custom anti-glare prisms. An ideal light source for double workstations in open-plan offices and for single workstations in smaller offices – all with reduced reflections.

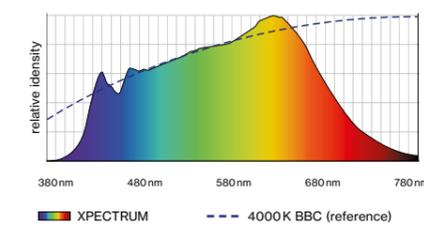

ES TASK garantiza una iluminación de puestos de trabajo adaptada a la normativa mediante el uso de prismas especiales antideslumbrantes. Una fuente de luz ideal para puestos de trabajo dobles en oficinas de gran tamaño, pero también para puestos de trabajo individuales en oficinas pequeñas, y además con mínimos reflejos.

## Full-spectrum LED

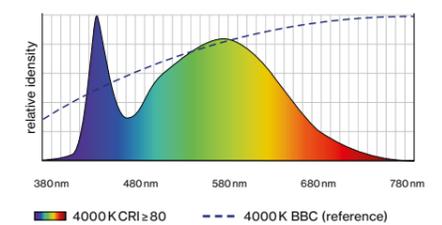

EN XAL's new XPECTRUM LEDs deliver healthy, biologically effective light. The reduced blue light and increased cyan values reduce the blue light hazard for the eye to daylight-equivalent levels. The resulting non-visual, so-called melanopic light effect, improves concentration and increases sleep quality. The excellent colour rendering of IES TM 30-15  $R_f=98$  and  $R_g=101$  further helps visual comfort.

ES El nuevo LED XPECTRUM de XAL ofrece una luz saludable con efectos biológicos. La menor proporción de luz azul y el aumento de los valores de cian minimizan el riesgo de la incidencia de luz azul en el ojo, manteniéndola a un nivel similar al presente en la luz natural. El efecto no visible resultante, denominado efecto melanópico, fomenta la concentración y mejora la calidad del sueño. Además, su excelente reproducción cromática –con índices  $R_f=98$  y  $R_g=101$  según la norma IES TM-30-15– garantiza una mayor comodidad visual.

# Slim and smart office system

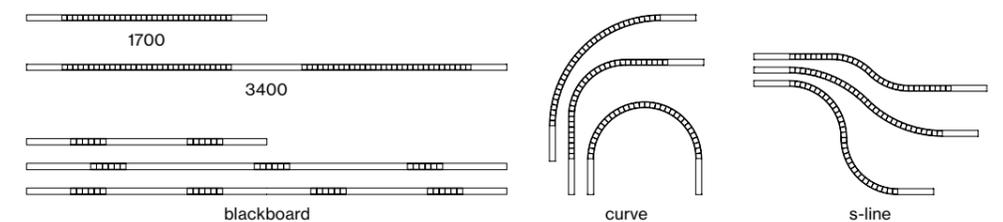

## BETO system

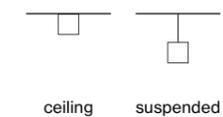

**EN** BETO is extremely slim, powerful, and optimised for office use. It is a system luminaire with an impressive range of flexible elements that can be lined up like building blocks. Available in ceiling-mounted and suspended versions, the system combines technical excellence with subtle, minimalist design. Designed specifically for offices, BETO has custom reflectors to give the best possible user-friendly, ambient monitor lighting. Some variants can be fitted with a brightness and presence sensor. This adapts the lighting to the activity in the office while reducing energy costs. The BETO System has an optional indirect light component for additional ceiling illumination. All curved and straight elements come in 3000 K or 4000 K light colours, and some also have a Tunable White option.

**ES** Extremadamente esbelta, potente y optimizada para el uso en la oficina: como luminaria modular, BETO destaca por sus elementos flexibles que pueden unirse unos a otros según las necesidades. Tanto la variante de montaje en techo como la variante modular suspendida combinan la excelencia tecnológica con un diseño sutil y minimalista. BETO ha sido concebida para entornos de oficina, y está dotada de reflectores especiales que le permiten ofrecer una óptima luz de trabajo apta. Algunos modelos pueden equiparse incluso con un sensor de presencia y luminosidad. Esto hace que la iluminación se adapte a la dinámica de la oficina, por lo que el coste energético se reduce. BETO System dispone de una fracción de luz indirecta opcional para la iluminación adicional del techo. Todos los elementos curvos o rectilíneos están disponibles en temperaturas de color de 3000 K o 4000 K, algunos de ellos con la opción Tunable White.

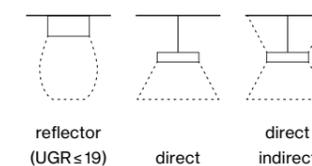

### Types

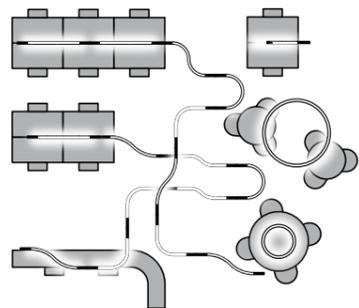

### Mountings

### Light distributions

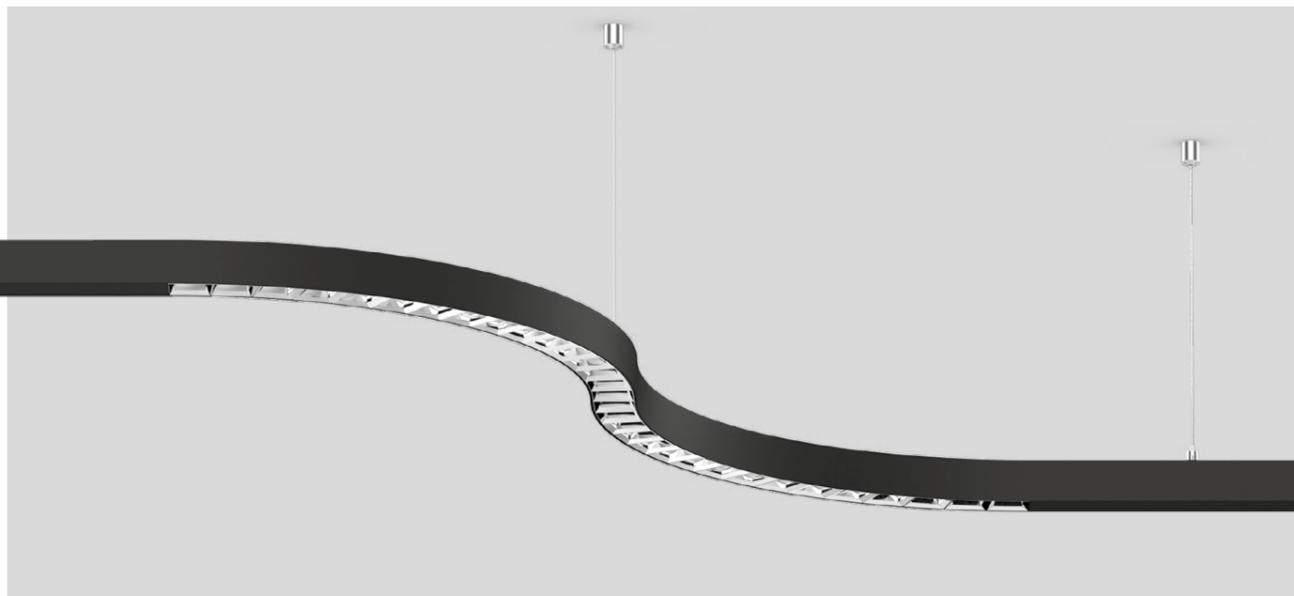

## Straight or curved

**EN** BETO System comes as a suspended luminaire with both straight or curved system elements. Regardless of whether in a linear, curved, or s-shaped design, BETO offers a multifunctional lighting solution that can be integrated into any lighting concept. With an optional indirect light component, the light is distributed homogeneously, creating a pleasant atmosphere.

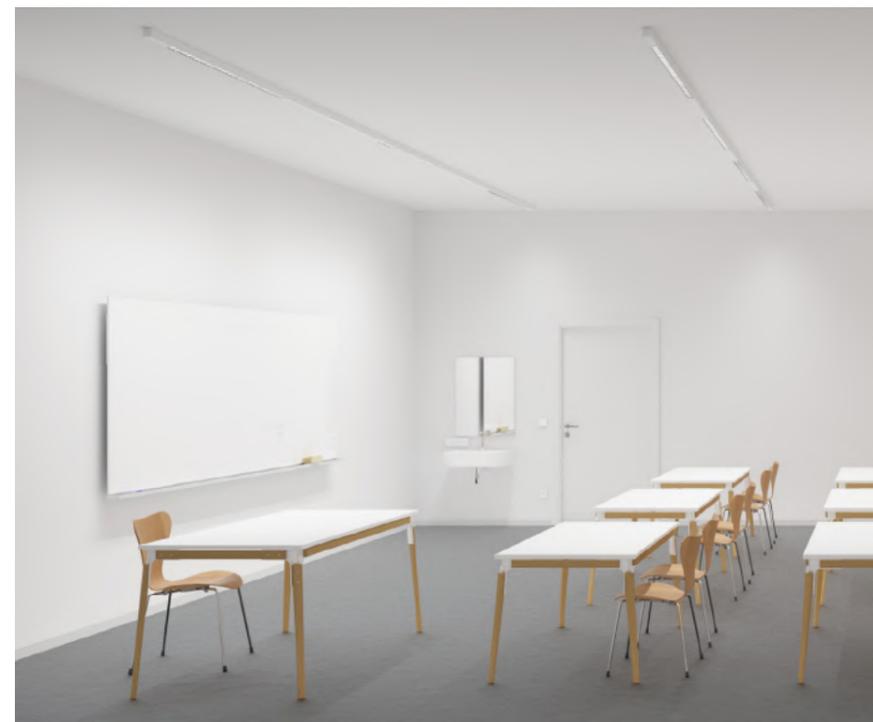

**ES** BETO System está disponible como lámpara suspendida con elementos modulares curvos o rectilíneos. Ya se trate de una configuración lineal, curva o en forma de S, BETO es una solución de iluminación polivalente que se integra perfectamente en cualquier esquema de diseño lumínico. Con su proporción de luz indirecta opcional, la luz se distribuye en la sala de manera homogénea y genera una sensación interior agradable.

## Work-friendly light

**EN** As an office luminaire, BETO guarantees illumination that is compliant with workplace standards (up to  $UGR \leq 13$ ). Custom glare-free reflectors and the selected use of blind covers direct the light precisely to the work surface and reduce reflections. The direct/indirect version comes with special lens technology that distributes the indirect light component homogeneously and broadly into the room.

**ES** Como luminaria de oficina, BETO ofrece una iluminación de puestos de trabajo adaptada a la normativa (hasta  $UGR \leq 13$ ). Unos reflectores especiales exentos de deslumbramiento y el empleo selectivo de cubiertas opacas dirigen la luz con precisión a la superficie de trabajo y reducen los reflejos. En la variante directa/indirecta, una tecnología de lentes especial distribuye una proporción de luz indirecta con un patrón de irradiación muy amplio de manera homogénea en la sala.

## Blackboard lighting

**EN** Uniform blackboard illumination is still a primary focus of good classroom lighting to hold attention and remain legible even from the back. It is often helpful during presentations to dim the lighting or to illuminate parts of the room. Pre-programmed lighting scenes can be activated, thus supporting varying teaching requirements.

**ES** Una de las mayores prioridades en el alumbrado de aulas de enseñanza sigue siendo el ofrecer una iluminación homogénea de la pizarra que garantice una visibilidad y legibilidad óptimas incluso desde la última fila. A su vez, durante presentaciones es conveniente poder atenuar el sistema de iluminación o iluminar solamente partes de la sala. La selección de distintas escenas preprogramadas permite adaptar la iluminación a los cambiantes requisitos didácticos.

## Advanced sensor technology

**EN** BETO System is equipped with a DALI sensor and can be controlled as a network. A presence sensor controls the light at the workstation if someone is there. A brightness sensor adjusts the light intensity to the ambient brightness. If desks, rooms, or corridors are unoccupied, the light automatically switches off after a defined delay. This saves energy and extends the service life.

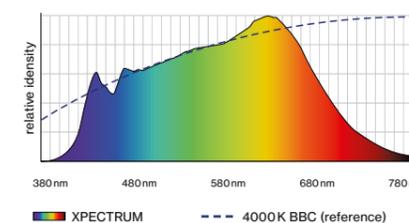

**ES** Equipada con un sensor DALI, BETO System puede ser controlada a modo de red. Un sensor de presencia regula la iluminación del puesto de trabajo en función de la presencia de una persona, mientras que un sensor de luminosidad adapta la intensidad de la luz a la luminosidad del entorno. Esto permite que la luz se apague automáticamente en escritorios, salas o pasillos vacíos tras un tiempo de espera determinado, lo cual ahorra energía y prolonga la durabilidad de las luminarias.

## Full-spectrum LED

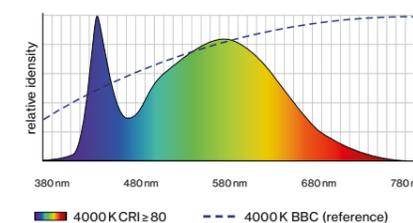

**EN** XAL's new XPECTRUM LEDs deliver healthy, biologically effective light. The reduced blue light and increased cyan values reduce the blue light hazard for the eye to daylight-equivalent levels. The resulting non-visual, so-called melatonin light effect, improves concentration and increases sleep quality. The excellent colour rendering of IES TM 30-15  $R_f = 98$  and  $R_g = 101$  further helps visual comfort.

**ES** El nuevo LED XPECTRUM de XAL ofrece una luz saludable con efectos biológicos. La menor proporción de luz azul y el aumento de los valores de cian minimizan el riesgo de la incidencia de luz azul en el ojo, manteniéndola a un nivel similar al presente en la luz natural. El efecto no visible resultante, denominado efecto melanópico, fomenta la concentración y mejora la calidad del sueño. Además, su excelente reproducción cromática –con índices  $R_f = 98$  y  $R_g = 101$  según la norma IES TM-30-15– garantiza una mayor comodidad visual.

# The art of round efficiency

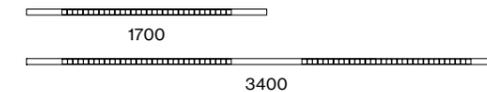

## SETA system

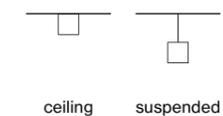

**EN** The SETA system luminaire is perfect for bespoke office needs with a choice of straight or angular elements that can be arranged in any order. The minimalist yet powerful luminaire is available in ceiling-mounted or suspended system versions. Particularly noteworthy are the reflectors optimised for office spaces, which were designed specifically for working on screens. The indirect light component creates a pleasant, homogeneous ceiling illumination for every work area. The SETA System luminaire is also available on request with presence and brightness sensors, and in the light colours 3000 K, 4000 K, and, depending on the version, also in Tunable White.

**ES** Con elementos rectos o angulares que pueden unirse unos a otros a placer, la luminaria modular SETA es perfecta para satisfacer las necesidades individuales de oficinas. Esta luminaria minimalista a la par que potente está disponible en una variante de superficie para el montaje en techo o como variante modular suspendida. Cabe destacar sobre todo los reflectores optimizados específicamente para dependencias de oficinas, que han sido diseñados especialmente para el trabajo con pantallas de visualización. La proporción de luz indirecta genera una iluminación del techo homogénea y agradable en cualquier zona de trabajo. Opcionalmente, la luminaria modular SETA está disponible con sensores de presencia y luminosidad y en temperaturas de color de 3000 K y 4000 K, así como en Tunable White en algunas variantes.

## Work-friendly light

**EN** As an office luminaire, SETA guarantees illumination that is compliant with workplace standards (up to  $UGR \leq 16$ ). Custom glare-free reflectors and the selected use of blind covers direct the light precisely to the work surface and reduce reflections. The direct/indirect version comes with special lens technology that distributes the indirect light component homogeneously and broadly towards the ceiling.

**ES** Como luminaria de oficina, SETA ofrece una iluminación de puestos de trabajo adaptada a la normativa (hasta  $UGR \leq 16$ ). Unos reflectores especiales exentos de deslumbramiento y el empleo selectivo de cubiertas opacas dirigen la luz con precisión a la superficie de trabajo y reducen los reflejos. En la variante directa/indirecta, una tecnología de lentes especial distribuye una proporción de luz indirecta con un patrón de irradiación muy amplio de manera homogénea en la sala.

## Advanced sensor technology

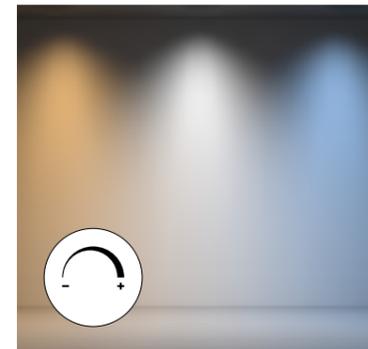

**EN** SETA System is equipped with a DALI sensor and can be controlled as a network. A presence sensor controls the light at the workstation depending on whether anyone is in the vicinity. If desks, rooms, or corridors are unoccupied, the light automatically switches off after a defined delay. This saves energy and extends the service life. A brightness sensor adjusts the light intensity to the ambient brightness.

**ES** Equipada con un sensor DALI, SETA System puede ser controlada a modo de red. Un sensor de presencia regula la iluminación del puesto de trabajo en función de la presencia de una persona, mientras que un sensor de luminosidad adapta la intensidad de la luz a la luminosidad del entorno. Esto permite que la luz se apague automáticamente en escritorios, salas o pasillos vacíos tras un tiempo de espera determinado, lo cual ahorra energía y prolonga la durabilidad de las luminarias.

## Lines & edges

**EN** SETA System comes as a suspended luminaire with straight and angular system elements. Thus, SETA offers a lighting solution that fits into any lighting design concept. Optionally with an indirect light component, the light is distributed homogeneously across the ceiling and creates a pleasant room atmosphere.

**ES** SETA System está disponible como luminaria de suspensión con elementos modulares angulares y rectilíneos, por lo que SETA ofrece una solución de iluminación que se integra en cualquier esquema de planificación luminotécnica. Con su proporción de luz indirecta opcional, la luz se distribuye en el techo de forma homogénea, generando una atmósfera interior agradable.

## TW – Tunable White

**EN** Changes in the colour of light have a substantial effect on our mood. Tunable White allows the colour temperature to be continuously adjusted from 2700 K (warm light) to 6500 K (cool light) to dynamically adapt the lighting to the time of day or ambient brightness.

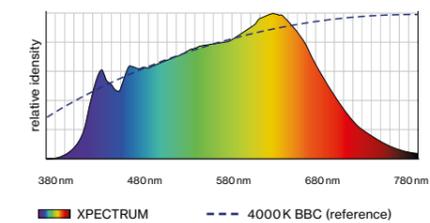

**ES** Los cambios de color de la luz tienen un efecto considerable en nuestro estado de ánimo. Tunable White hace posible una modificación continua de la temperatura de color desde 2700 K (luz cálida) hasta 6500 K (luz fría), con el fin de adaptar la iluminación de forma dinámica a la hora del día o a la luminosidad del entorno.

## Full-spectrum LED

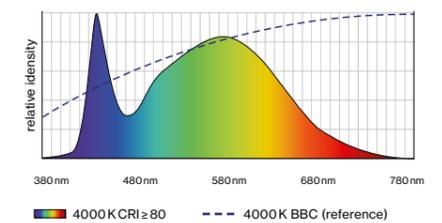

**EN** XAL's new XPECTRUM LEDs deliver healthy, biologically effective light. The reduced blue light component and increased cyan values reduce the blue light hazard for the eye to daylight-equivalent levels. The resulting non-visual, so-called melanopic light effect, improves concentration and increases sleep quality. The excellent colour rendering of IES TM 30-15  $R_f = 98$  and  $R_g = 101$  further helps visual comfort.

**ES** El nuevo LED XPECTRUM de XAL ofrece una luz saludable con efectos biológicos. La menor proporción de luz azul y el aumento de los valores de cian minimizan el riesgo de la incidencia de luz azul en el ojo, manteniéndola a un nivel similar al presente en la luz natural. El efecto no visible resultante, denominado efecto melanópico, fomenta la concentración y mejora la calidad del sueño. Además, su excelente reproducción cromática –con índices  $R_f = 98$  y  $R_g = 101$  según la norma IES TM-30-15– garantiza una mayor comodidad visual.

# Quality along the line

## LENO system

**EN** The extremely flat LENO profile luminaire is surprisingly versatile. It is available as a recessed, semi-recessed, or surface-mounted version for wall or ceiling mounting, in a suspended version. LENO and its microprismatic cover create ideal work light. The version with an opal cover is best suited for homogeneous room lighting. The variant with asymmetrical beam distribution illuminates walls homogeneously. LENO Jut-Out adds further ceiling illumination by employing discreet lateral radiation. By simply fixing the insets magnetically, assembly is quick and flexible.

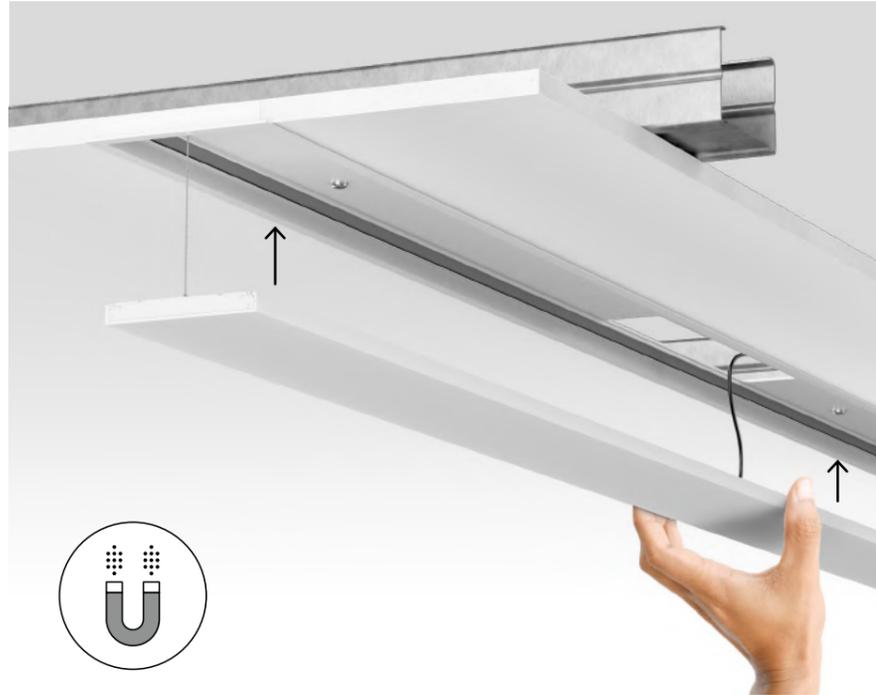

**ES** La luminaria de perfiles LENO ultraplana sorprende por su versatilidad. Está disponible en variantes empotradas, semiempotradas o de superficie para el montaje en pared o techo y en una variante suspendida. LENO ofrece la mejor luz de trabajo con su difusor microprismático. La variante con cubierta opal es perfecta para un alumbrado general uniforme. La variante con proyección asimétrica ilumina las paredes de forma homogénea, mientras que LENO Jut-Out genera una iluminación adicional del techo gracias a su elegante proyección lateral. El montaje es rápido y flexible, debido a que los insertos se fijan magnéticamente con total facilidad.

## Magnetic attachment

EN Simple and utterly tool-free installation: LENO luminaire insets are magnetically fixed in the profile. The patented system saves time and money when installing the luminaire.

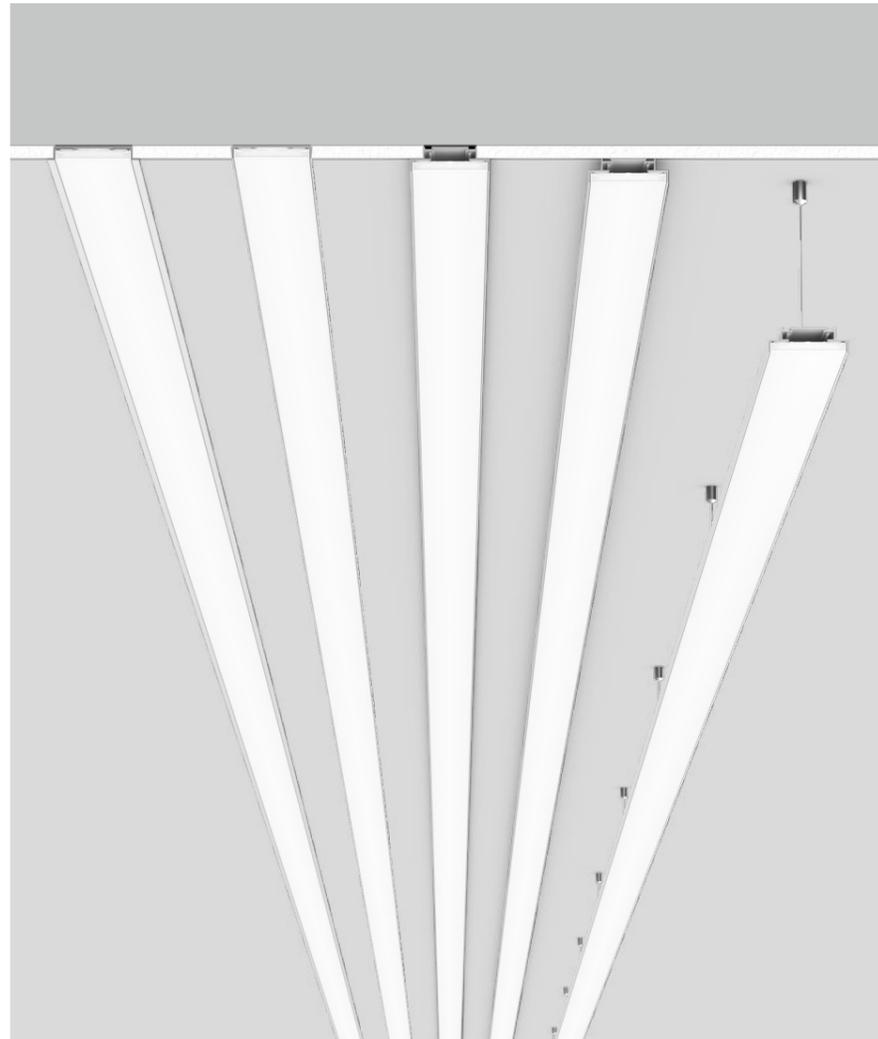

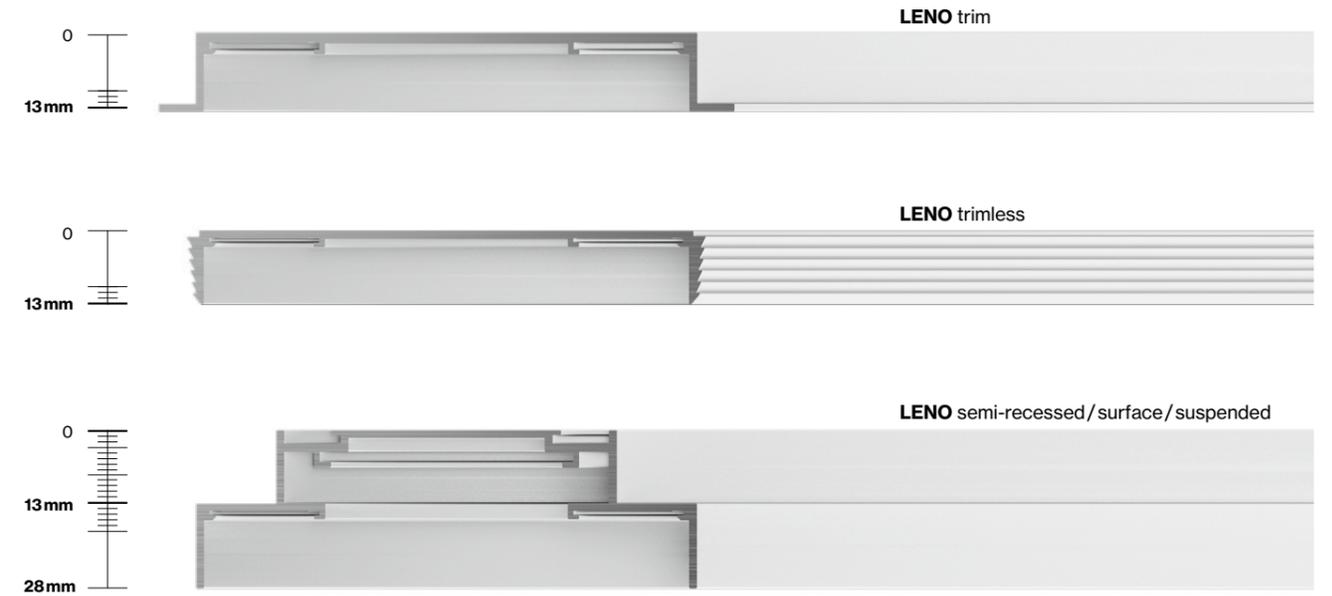

ES Montaje sencillo y totalmente sin herramientas: Los cuerpos de las luminarias LENO se fijan magnéticamente al perfil. Este sistema patentado permite ahorrar aún más tiempo y dinero al montar la luminaria.

## Slim and efficient

EN Innovative lighting technology, minimal profile heights. The extremely flat flush-mounted variants, both with and without a trim, match the height of plasterboard. They are therefore easily mounted on any ceiling, regardless of its substructure. This grants maximum design freedom with a slim appearance and impressive efficiency.

ES Tecnología de iluminación innovadora, alturas de perfil mínimas. Las versiones empotradas ultraplanas, con o sin marco, tienen exactamente la misma altura que una placa de cartón yeso. Eso hace que puedan montarse fácilmente en cualquier techo, independientemente de su estructura de soporte. Numerosas posibilidades de configuración, combinadas con una apariencia esbelta y una eficiencia impresionante.

## Variety

EN Available for installation in plasterboard ceilings, suspended, or as a surface-mounted variant, this exceptionally flat profile luminaire has precise, homogeneously illuminated edges and can be used in a variety of ways. Choose between the high-performance Opal Cover inset for homogeneous illumination, the workplace-compatible micro-prismatic cover ( $UGR \leq 19$ ) or the opal Jut-Out version for improved room and ceiling illumination. Different lengths and optional asymmetrical light distribution complete the range.

ES Ya sea para el empotramiento en techos de yeso, la instalación suspendida o en su versión de montaje en superficie, esta luminaria de perfil extremadamente plano está dotada de bordes precisos e iluminados de manera homogénea y admite una gran cantidad de usos. En cuanto a los difusores, es posible elegir entre la High Performance Opal Cover para un alumbrado homogéneo, el difusor microprismático apto para puestos de trabajo ( $UGR \leq 19$ ) o la versión opal Jut-Out para una mejor iluminación de la sala y el techo. Diversas longitudes y una distribución de la luz asimétrica opcional completan la gama de opciones.

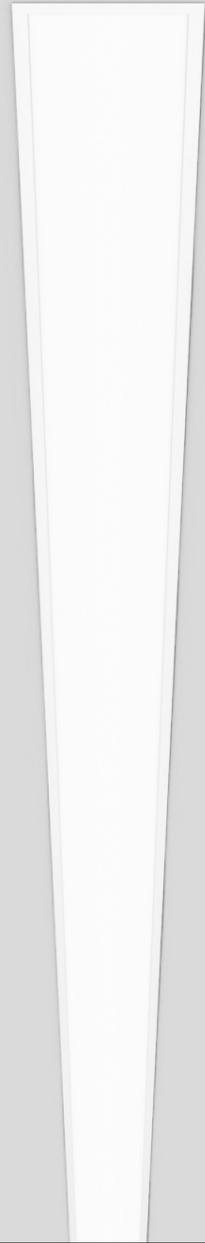

## Single or system

EN LENO is flexible and available in four lengths, and as a system luminaire in any length. Depending on requirements, the elements are simply mechanically connected – tailored to match the design of the interior. LENO can create a particularly powerful, continuous lighting system, granting maximum freedom of design.

ES LENO es sinónimo de flexibilidad y está disponible en cuatro longitudes distintas como, o en la longitud que se desee en su variante de sistema. Los elementos se combinan mecánicamente con toda facilidad en función de los requisitos, adaptándolos individualmente al diseño del interior. Con LENO es posible crear un sistema de iluminación continuo y extremadamente efectivo que permite disponer de innumerables opciones de configuración.

← back

## LENO system

recessed with trim

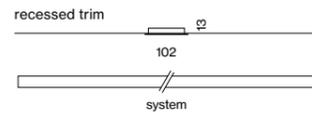

**EN** Low profile recessed channel; suitable for installation in 12.5mm ceilings, with trim; suitable for wall or ceiling mounting; for continuous lighting systems; surface powder coated; easy mounting without need to cut the substructure; fall-safe light inset made of extruded aluminium profile, can be inserted in the canal without tools by magnetic holders; side coupled light, directed downwards by LGP body (Light Guiding Prism) and highly efficient reflector; homogeneously illuminated, satinised (flush or jut-out) or microprismatic PMMA cover; optional with asymmetric light distribution; energy-eff. LEDs – very good colour rendering; incl. external converter for ceiling insertion

**ES** Canal para montaje empotrado extremadamente plano; apropiado para montaje en techos de 12,5mm, con borde de contorno; apropiado para el montaje en la pared y en el techo; para sistemas de iluminación continuos; superficie con recubrimiento de pintura en polvo; montaje sencillo sin cortar la construcción inferior; elemento de luz asegurado contra caídas de perfil de aluminio extrusionado que se puede introducir en el canal sin herramientas por medio de un soporte magnético; fuente de luz insertada en un lateral que es guiada y reflectada a través de unos prismas y reflector de alta calidad; cubierta de PMMA iluminada homogéneamente, satinada (enrasada o sobresaliente) o micro-prismática; opcional con distribución asimétrica; LED energét. efíc. – excelente reprod. crom.; incl. convertidor externo para inserción en el techo

# Sharpen your profile system

## MINIMAL system

**EN** A minimalist, continuous lighting system with maximum design freedom – MINIMAL makes this combination possible. The system luminaire is rimless, can be varied in length and thus be individually combined. CORNER elements create the perfect connection between the individual system luminaires. Designed for indoor use, the microprismatic cover version offers a standard-compliant reduced glare value for ideal workplace lighting. When using the opal cover, homogeneous room illumination is achieved, whereas the wallwasher insert provides uniform wall illumination. The MINIMAL system luminaire is available in the light colours 3000K, 4000K, and optionally in Tunable White.

**ES** MINIMAL hace posible la combinación de un sistema de iluminación continuo y minimalista con la máxima libertad de diseño. La luminaria modular no tiene bordes y es de longitud variable, por lo que puede combinarse individualmente. Los elementos CORNER posibilitan la unión perfecta entre las distintas luminarias modulares. Concebida para interiores, la variante con difusor microprismática ofrece un índice de deslumbramiento reducido adaptado a la normativa para una iluminación perfecta de puestos de trabajo. El uso del difusor opal permite lograr un alumbrado general homogéneo. Por su parte, el inserto bañador de luz garantiza una iluminación uniforme de paredes. La luminaria modular MINIMAL está disponible en temperaturas de color de 3000K, 4000K y, opcionalmente, Tunable White.

## MINIMAL 60 system

recessed trimless

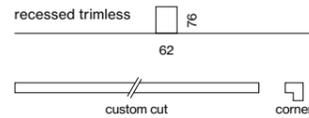

<sup>EN</sup> Luminaire housing made of extruded aluminium; for trimless installation in plasterboard ceilings; special edge design with grooves for better adhesion of filler; for continuous lighting systems; for ceiling thickness of 8-25mm; surface powder coated; luminaire profile for mounting available in advance; remaining components mounted without tools; light inset consisting of highly reflective coated extruded profile for improved thermal management; option: lighting module is versatile in length; HPO (High Performance Opal) cover for uniform illumination; micro prismatic PMMA diffuser incl. diffuser film for homogeneous illumination and reduced luminance; wallwasher light inset; energy-eff. LEDs – very good colour rendering

<sup>ES</sup> Cuerpo de lámpara de perfil extrusionado de aluminio; para montaje sin marco en techos de yeso; con diseño especial en los bordes para facilitar una mejor fijación del producto ; para sistemas de iluminación continuos; para espesores de techo de 8-25mm; superficie con recubrimiento de pintura en polvo; Perfil disponible para pre-montaje; los demás componentes se pueden montar sin herramientas; elemento de luz formado por perfil extruido con acabado altamente reflectante para una gestión térmica mejorada; elemento de luz opcional recortable a discreción; difusor opal de alta calidad que proporciona una iluminación uniforme; cubierta microprismática de PMMA con lámina difusora para la reducción de iluminancia y un alumbrado homogéneo; inserto bañador de pared; LED energét. efic. – excelente repro. crom.

# Outline your profile system

## FRAME system

**EN** The FRAME system luminaire sets no limits on office lighting and profile-based ambient lighting. Thanks to special flex insets, FRAME can be shortened on-site and thus adapted to all conditions. The system luminaire connects to form a light band, creating continuous lighting. Corner connectors thus create a continuous lighting system. The lighting insets also leave nothing to be desired – whether insets with opal cover for uniform room illumination, or the microprismatic cover for light suitable for workplaces. Available light colours range from 3000 K to 4000 K and optional Tunable White, and a colour rendering of up to  $\text{CRI} \geq 98$  (XPECTRUM).

**ES** La luminaria modular FRAME satisface cualquier necesidad en las áreas de la iluminación de oficina y del alumbrado general con sistemas de perfiles. Gracias a sus insertos Flex especiales, FRAME puede acortarse en el propio lugar de instalación y adaptarse así a cualquier circunstancia. La luminaria modular puede unirse en forma de banda luminosa creando un alumbrado ininterrumpido. Los conectores de esquinas hacen posible la obtención de un sistema de iluminación continuo. Los insertos luminosos también satisfacen cualquier requisito, cubiertos con un difusor opal para un alumbrado interior uniforme o dotados de una cubierta microprismática para una iluminación adaptada a puestos de trabajo. En el área de la temperatura de color puede elegirse entre 3000K, 4000K y, opcionalmente, Tunable White. Por su parte, la reproducción cromática alcanza un índice  $\text{IRC} \geq 98$  (XPECTRUM).

## FRAME 40 system

recessed with trim

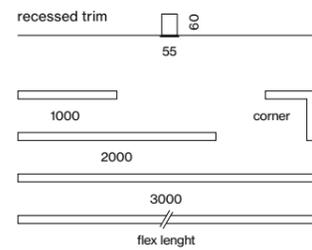

**EN** Luminaire housing made of extruded aluminium; recessed luminaire with trim; designed for continuous lighting systems; suitable for ceiling thickness of 8-25 mm; surface powder coated; luminaire profile incl. light inset; cover in the length of the light inset or continuous cover (both separately available); pre-assembled power rail for power supply in luminaire profile; voltage tap of the light inset on the power rail; light inset consisting of highly reflective coated extruded profile for improved thermal management; HPO (High Performance Opal) cover for uniform illumination; energy-efficient LEDs with very good colour rendering

**ES** Cuerpo de lámpara de perfil extrusionado de aluminio; luminaria empotrable con marco; diseñado para la creación de sistemas continuos; apropiada para grosores de techo entre 8-25 mm; superficie con recubrimiento de pintura en polvo; perfil de lumin. con inserto lumin.; difusor en longitud de inserto luminoso o continuo (ambos deben encargarse por separado); carril eléctrico premont. para suministro de corr. en perfil de lumin.; toma de corr. para inserto lumin. en carril eléctrico; elemento de luz formado por perfil extruido con acabado altamente reflectante para una gestión térmica mejorada; difusor opal de alta calidad que proporciona una iluminación uniforme; LEDS de alta eficiencia que proporcionan una alta reproducción cromática

## FRAME 100 system

recessed with trim

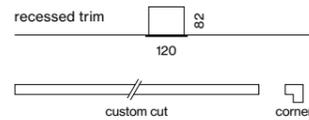

EN Luminaire housing made of extruded aluminium; recessed luminaire with trim; for continuous lighting systems; for ceiling thickness of 8-25 mm; surface powder coated; luminaire profile for mounting available in advance; remaining luminaire components mounted without tools; light inset consisting of highly reflective coated extruded profile for improved thermal management; option: lighting module is versatile in length; HPO (High Performance Opal) cover for uniform illumination; micro prismatic PMMA diffuser incl. diffuser film for homogeneous illumination and reduced luminance; wallwasher light inset; energy-efficient LEDs with very good colour rendering

ES Cuerpo de lámpara de perfil extrusionado de aluminio; luminaria empotrable con marco; diseñado para la creación de sistemas continuos; apropiada para grosores de techo entre 8-25 mm; superficie con recubrimiento de pintura en polvo; Perfil disponible para pre-montaje; resto de componentes luminosos montables sin herramienta; elemento de luz formado por perfil extruido con acabado altamente reflectante para una gestión térmica mejorada; elemento de luz opcional recortable a discreción; difusor opal de alta calidad que proporciona una iluminación uniforme; cubierta microprismática de PMMA con lámina difusora para la reducción de iluminancia y un alumbrado homogéneo; inserto bañador de pared; LEDS de alta eficiencia que proporcionan una alta reproducción cromática

# Discreet profile system

## CANYON system

**EN** The CANYON system luminaire radiates calm and makes visitors feel welcome – whether in entrance halls, at the reception, or in corridors or lounges. The specially developed, flex insets, which can be shortened, make the luminaire a true all-round talent; with its tailored profile length, the luminaire can also be transformed into a customised lighting system by using CORNER elements. Also noteworthy: When combined with the opal cover, the CANYON system luminaire creates uniform ambient lighting. For workstations, it can be perfectly adapted to office conditions using insets with microprismatic covers.

**ES** La luminaria modular CANYON irradia tranquilidad y hace que los visitantes –ya sea en vestíbulos, en la recepción, en pasillos o en salas de descanso– se sientan bienvenidos. Los insertos Flex acortables de creación especial convierten a esta luminaria en una verdadera multitallento: con la longitud de perfil deseada, la luminaria puede transformarse asimismo en un sistema de iluminación individual utilizando elementos CORNER. Otro aspecto destacable es que, en combinación con el difusor opal, la luminaria modular CANYON proporciona un alumbrado general uniforme. En puestos de trabajo, la luminaria puede adaptarse perfectamente a cualquier entorno de oficina con insertos dotados de difusor microprismático.

## MINO system

**EN** The MINO system luminaire complements the multifaceted nature of the MINO single luminaire. Whether as a surface-mounted version for wall or ceiling mounting, or as a suspended version with an indirect light component, the MINO System luminaire is truly versatile. Using CURVE elements, which come in various radii, and CORNER elements, the luminaires are transformed into a continuous lighting system. With three standard and additional special colours available, MINO can be customised according to the desired room concept. You can also combine the light insets for homogeneous ambient lighting with an opal cover. Other options include the use of a wallwasher for a uniformly illuminated wall surface, or the microprismatic cover specially designed for workstations. Excellent colour rendering and three possible light colours complete the MINO system luminaire.

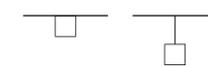

**ES** La luminaria modular MINO completa la gran versatilidad de la luminaria individual MINO. Ya sea como variante de superficie para el montaje en pared o techo o en el modelo de suspensión con proporción de luz indirecta, la luminaria modular MINO admite un uso muy variado. Mediante elementos CORNER y los elementos CURVE disponibles en radios diversos, las distintas luminarias se transforman en un sistema de iluminación continuo. Los tres colores estándar y otros colores especiales disponibles hacen que MINO pueda adaptarse al diseño interior específico. Si lo desea, puede combinar (incluso parcialmente) los insertos luminosos con un difusor opal para obtener un alumbrado general homogéneo o con un bañador de luz para la iluminación uniforme de paredes, o utilizar un difusor microprismático concebido especialmente para la iluminación de puestos de trabajo. La luminaria modular MINO se completa con una muy buena reproducción cromática y tres temperaturas de color disponibles.

## TW – Tunable White

EN Changes in the colour of light have a substantial effect on our mood. Tunable White allows the colour temperature to be continuously adjusted from 2700 K (warm light) to 6500 K (cool light) to dynamically adapt the lighting to the time of day or ambient brightness.

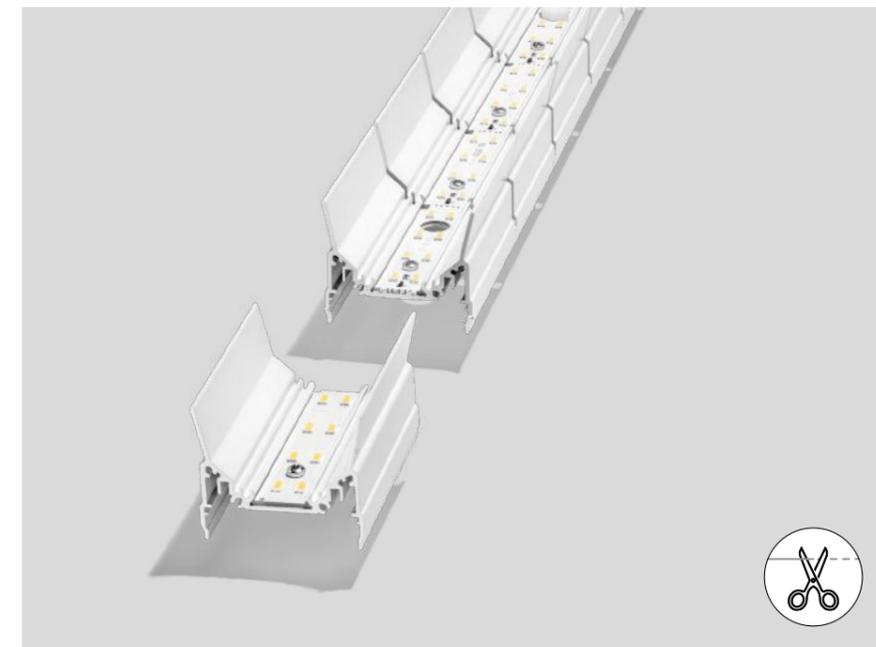

ES Los cambios de color de la luz tienen un efecto considerable en nuestro estado de ánimo. Tunable White hace posible una modificación continua de la temperatura de color desde 2700 K (luz cálida) hasta 6500 K (luz fría), con el fin de adaptar la iluminación de forma dinámica a la hora del día o a la luminosidad del entorno.

## Precise planning with flex insets

EN Your lighting system can be easily adapted to existing room dimensions. You can determine bespoke lengths for MINO. The special flex insets are precisely and flexibly adapted on-site during assembly. Boards are simply cut off at prefabricated breakpoints. This gives you a free hand and minimal restrictions in the lighting design.

ES Su sistema de iluminación puede adaptarse fácilmente a las dimensiones espaciales requeridas. Para los perfiles Advanced, puede elegir las longitudes que prefiera. Las inserciones especiales Flex se adaptan durante el montaje con exactitud y flexibilidad: las pletinas se separan fácilmente por áreas de rotura prefabricadas. Esto le ofrece una total libertad y evita numerosas restricciones en la planificación de la iluminación.

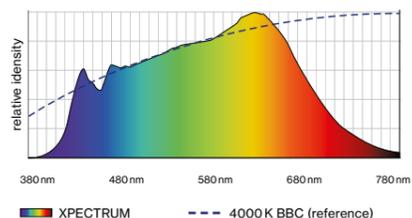

## Full-spectrum LED

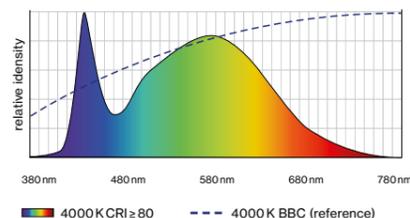

EN XAL's new XPECTRUM LEDs deliver healthy, biologically effective light. The reduced blue light component and increased cyan values reduce the blue light hazard for the eye to daylight-equivalent levels. The resulting non-visual, so-called melanopic light effect, improves concentration and increases sleep quality. The excellent colour rendering of IES TM 30-15  $R_i = 98$  and  $R_g = 101$  further helps visual comfort.

ES El nuevo LED XPECTRUM de XAL ofrece una luz saludable con efectos biológicos. La menor proporción de luz azul y el aumento de los valores de cian minimizan el riesgo de la incidencia de luz azul en el ojo, manteniéndola a un nivel similar al presente en la luz natural. El efecto no visible resultante, denominado efecto melanópico, fomenta la concentración y mejora la calidad del sueño. Además, su excelente reproducción cromática –con índices  $R_i = 98$  y  $R_g = 101$  según la norma IES TM-30-15– garantiza una mayor comodidad visual.

XPECTRUM LED

Commercially available LED 4000 K

## Colour variety

EN MINO is available in the standard colours black, grey, and white. Further colour variations are also available, granting your project maximum design freedom. You can learn more about our colour palette at xal.com/colours.

ES Todos los perfiles Advanced están disponibles en diversos colores estándar. Además existen otras gamas de color disponibles, lo que le proporciona la máxima libertad de diseño para su proyecto. Encontrará más información sobre nuestra paleta de colores en xal.com/colours.

xal.com/colours

## Curves & edges

EN Let your creativity run wild and combine straight profiles with precise corners or harmonious curves. The curve profiles are available in different radii to generate maximum design freedom.

ES Dé rienda suelta a su creatividad conectando perfiles rectilíneos a esquinas precisas o curvas armoniosas. Los perfiles curvos están disponibles en distintos radios para ofrecer la máxima libertad de diseño. Ya que todos los elementos de perfil encajan entre sí, podrá diseñar sistemas de configuración personalizada adaptados a sus deseos y al espacio disponible.

## MINO 40 system

ceiling/suspended

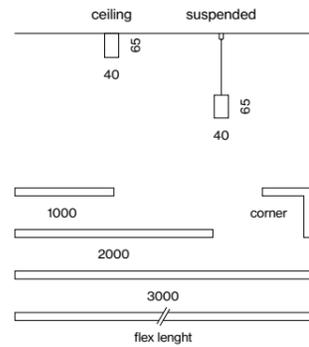

**EN** Luminaire housing from extruded aluminium profile, angular design; no visible screws; for lighting systems; powder coated; luminaire profile incl. light inset; cover in the length of the light inset or continuous cover (both separately available); pre-assembled power rail for power supply in luminaire profile; voltage tap of the light inset on the power rail; pendant fitting with cable suspension; height adjustment without tools; with transparent feeder cable; light inset consisting of highly reflective coated extruded profile for improved thermal management; HPO (High Performance Opal) cover for uniform illumination; energy-eff. LEDs – very good colour rendering

**ES** Cuerpo de perfil de aluminio con diseño angular; sin tornillos visibles; para sistemas de iluminación; recubierto de polvo; perfil de lumin. con inserto lumin.; difusor en longitud de inserto luminoso o continuo (ambos deben encargarse por separado); carril eléctrico premont. para suministro de corr. en perfil de lumin.; toma de corr. para inserto lumin. en carril eléctrico; suspendido con cable; altura regulable sin herramientas; incl. cable de alimentación transparente; elemento de luz formado por perfil extruido con acabado altamente reflectante para una gestión térmica mejorada; difusor opal de alta calidad que proporciona una iluminación uniforme; LED energét. efíc. – excelente reprod. crom.

## MINO 60 CURVE system

ceiling / suspended

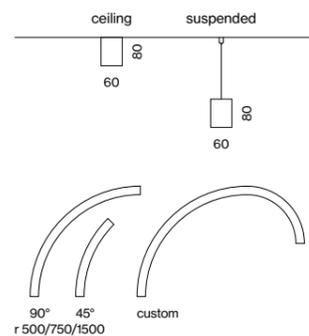

EN Circular segment of rolled aluminium profile, angular design, seamlessly welded; no visible screws; for lighting systems; powder coated; luminaire profile for mounting available in advance; remaining components mounted without tools; pendant fitting with cable suspension; height adjustment without tools; spring clip attachment to the luminaire; freely positionable; with transparent feeder cable; light inset consisting of highly reflective coated die-cast aluminium for improved thermal management; HPO (High Performance Opal) cover for uniform illumination; micro prismatic PMMA diffuser incl. diffuser film for homogeneous illumination and reduced luminance; energy-eff. LEDs – very good colour rendering

ES Segmento circular de perfil de aluminio enrollado, versión angulosa, soldado sin costuras; sin tornillos visibles; para sistemas de iluminación; recubierto de polvo; Perfil disponible para pre-montaje; los demás componentes se pueden montar sin herramientas; suspendido con cable; altura regulable sin herramientas; fijación en la lámpara por medio de clips elásticos; ajustable de una manera sencilla; incl. cable de alimentación transparente; elemento de luz formado por fundación de aluminio con acabado altamente reflectante para una gestión térmica mejorada; difusor opal de alta calidad que proporciona una iluminación uniforme; cubierta microprismática de PMMA con lámina difusora para la reducción de iluminación y un alumbrado homogéneo; LED energét. ef. – excelente reprod. crom.

## BASO IP54 system

**EN** BASO IP54 is a powerful profile luminaire that has been specially adapted to demanding environmental conditions: from public outdoor areas to wet rooms. It has increased dust and insect protection (IP54). BASO IP54 is available as a single luminaire or as a system variant. It is easy to install and suitable for recessed or surface fitting as well as for wall or ceiling mounting. An opal cover delivers homogeneous basic illumination. The luminaire has a colour rendering of up to  $CRI \geq 90$  and can be selected with a dark grey or white housing and in two light colours (3000 K and 4000 K).

**ES** BASO IP54 es una potente luminaria de perfil que se ha adaptado especialmente a las exigentes condiciones ambientales: pudiendo utilizarse en zonas exteriores públicas o espacios con alta humedad, entre otras muchas posibilidades. Además, está dotada de una elevada protección contra polvo e insectos (IP54). BASO IP54 está disponible como luminaria individual y como sistema, es fácil de montar y es apta tanto para la colocación empotrada o en superficie como para el montaje en pared o techo. Su difusor opal garantiza un alumbrado general homogéneo. Además, la luminaria ofrece una excelente reproducción cromática con de hasta  $CRI \geq 90$  y puede elegirse en dos temperaturas de color (3000 K y 4000 K) y con carcasa blanca o en color gris oscuro.

## BASO 60 IP54 system

recessed with trim

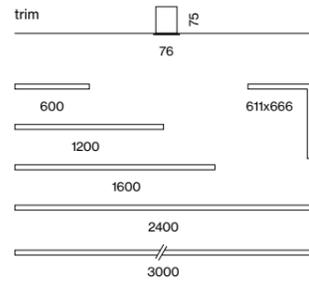

**EN** Luminaire housing made of extruded aluminium; recessed luminaire with trim; suitable for ceiling thickness of 8-20 mm; surface powder coated; suitable for wall or ceiling mounting; luminaire profile (end caps come pre-assembled) can be pre-mounted; remaining luminaire components mounted without tools; closed light insert made of PMMA, consisting of converter unit and circuit board unit; light inset with screwed-on, thus maintenance-friendly, transparent end cap in PMMA; HPO (High Performance Opal) cover for uniform illumination; energy-efficient LEDs with very good colour rendering; IP67 socket connector system for easy and sealed electrical connection

**ES** Cuerpo de lámpara de perfil extrusionado de aluminio; luminaria empotrable con marco; para sistemas de iluminación continuos; apropiada para grosores de techo entre 8-20mm; superficie con recubrimiento de pintura en polvo; apropiada para montaje en techo y paredes; perfil de luminaria premontable; resto de componentes luminosos montables sin herramienta; elemento de luz cerrado de PMMA, compuesto de convertidor y pletina; elemento de luz con tapa terminal transparente de metacrilato atornillada y de fácil mantenimiento; difusor opal de alta calidad que proporciona una iluminación uniforme; LEDs de alta eficiencia que proporcionan una alta reproducción cromática; conector con casquillo IP67 para realizar una conexión eléctrica estanca

## BASO 60 IP54 system

surface

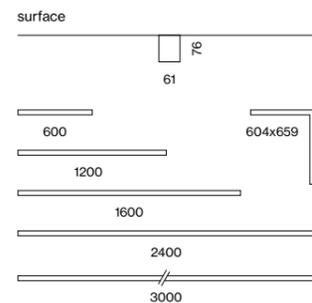

**EN** Luminaire housing from extruded aluminium profile, angular design; light-tight end caps in aluminium, no visible screws; surface powder coated; suitable for wall or ceiling mounting; luminaire profile (end caps come pre-assembled) can be pre-mounted; remaining luminaire components mounted without tools; closed light insert made of PMMA, consisting of converter unit and circuit board unit; light inset with screwed-on, thus maintenance-friendly, transparent end cap in PMMA; HPO (High Performance Opal) cover for uniform illumination; energy-efficient LEDs with very good colour rendering; IP67 socket connector system for easy and sealed electrical connection

**ES** Cuerpo de perfil de aluminio con diseño angular; tapa terminal de aluminio con cierre estanco, ningún tornillo visible; para sistemas de iluminación continuos; superficie con recubrimiento de pintura en polvo; apropiada para montaje en techo y paredes; perfil de luminaria premontable; resto de componentes luminosos montables sin herramienta; elemento de luz cerrado de PMMA, compuesto de convertidor y pletina; elemento de luz con tapa terminal transparente de metacrilato atornillada y de fácil mantenimiento; difusor opal de alta calidad que proporciona una iluminación uniforme; LEDs de alta eficiencia que proporcionan una alta reproducción cromática; conector con casquillo IP67 para realizar una conexión eléctrica estanca

# Perfect allrounder

## TUBO system

**EN** As a system luminaire, TUBO scores as a uniform and pleasant lighting system brought to life by linear connecting elements. The luminaire is available for wall and ceiling mounting, as well as in a suspended pendant version. Thanks to the opal cover, the TUBO System luminaire provides uniform ambient lighting and a pleasant atmosphere in entrance areas, corridors, and public spaces. The characteristic beam angle of up to 340° brightens the ceiling slightly while the available light colours 3000K and 4000K boost this positive room atmosphere.

**ES** En su variante modular, TUBO permite obtener un sistema de iluminación agradable y uniforme mediante la unión de elementos de conexión lineales. La luminaria también está disponible para el montaje en pared o techo y como variante de suspensión. Su difusor opal hace que la luminaria modular TUBO pueda ofrecer un alumbrado general homogéneo y un ambiente agradable en áreas de entrada, pasillos y zonas públicas. Su ángulo de proyección característico de hasta 340° garantiza una suave iluminación del techo, y las temperaturas de color de 3000K y 4000K disponibles contribuyen a la obtención de una atmósfera interior atractiva.

### Light distribution

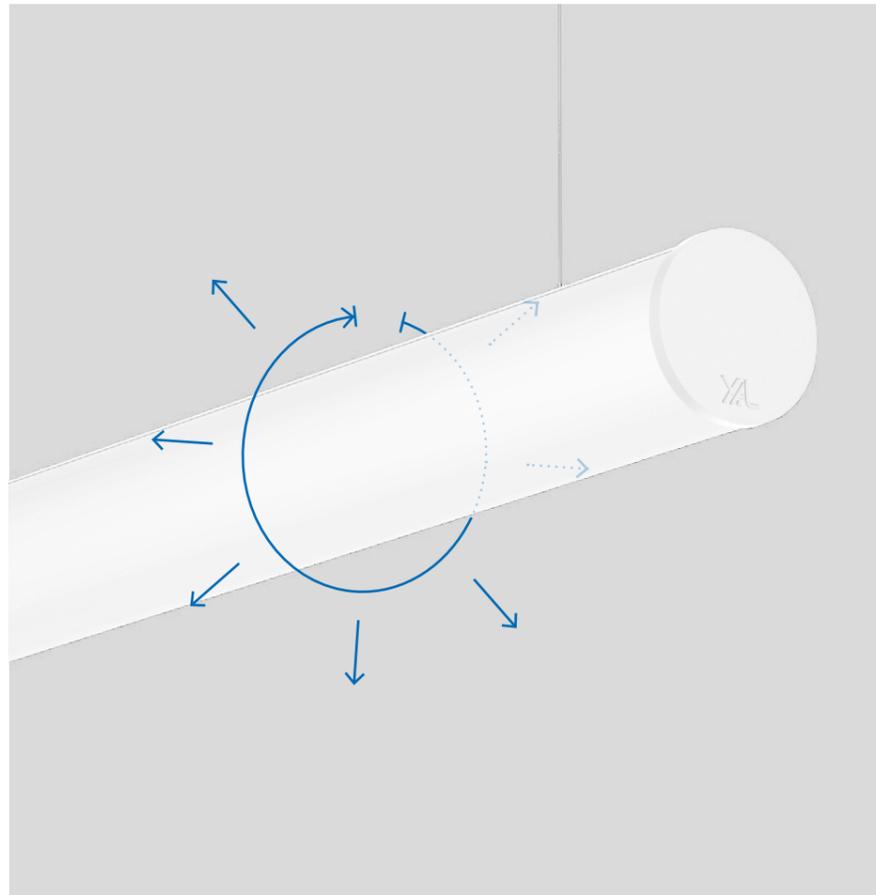

opal

## 340° light distribution

**EN** With its 340° beam pattern and opal cover, TUBO System delivers homogeneous illumination as well as slight ceiling brightening. This makes the system luminaire perfect for places where pleasant ambient lighting is desired, such as reception areas, corridors, or foyers.

**ES** Con su ángulo de proyección de 340° y su difusor opal, TUBO System ofrece un alumbrado homogéneo unido a una iluminación ligera del techo. Por eso, esta luminaria modular es perfecta para lugares en los que se desea contar con una iluminación general agradable, como zonas de recepción, pasillos y vestíbulos.

## Mounting options

**EN** The TUBO System can be installed as a surface-mounted version in a continuous lighting system for walls and ceilings, or as a suspended pendant luminaire on the ceiling.

**ES** TUBO System puede instalarse como sistema de iluminación continuo en su variante de superficie para el montaje en techos o paredes o como luminaria pendular suspendida en el techo.

## Seamless light channel

**EN** TUBO as a continuous lighting system: Connecting elements can turn individual TUBO luminaires into a seamless channel. This creates a visually uniform lighting system for many different applications – whether as a corridor luminaire, effect luminaire, or visual guidance system.

**ES** TUBO como sistema de iluminación continuo: los elementos de unión permiten convertir las distintas luminarias TUBO en un sistema de luz ininterrumpido. Esto crea un sistema visualmente uniforme para tipos de uso muy diversos, ya sea como luminaria de pasillo, luz de efecto o sistema de direccionamiento visual.

## Easy mounting

**EN** TUBO 60 system luminaires are electrically connected by a simple plug-in connection. This makes the installation of a complex lighting system simple, quick, and straightforward.

**ES** Las luminarias modulares TUBO 60 se conectan eléctricamente con una simple conexión enchufable. Con ello, el montaje de un sistema de iluminación completo puede realizarse de un modo muy sencillo, rápido y sin complicaciones.

# Define the horizon

## LINEA system

**EN** Elegant room accentuation, highest performance. LINEA is a reduced, convertible luminaire for stylish wall, floor, and ceiling illumination. The extraordinarily narrow wall profile is completed by various lighting insets. Different beam patterns can be easily combined. For example, an opal cover for homogeneous illumination and asymmetrical illumination for brightening floors or ceilings. Spotlights can be chosen for elegant accentuation or as reading lights. LINEA is available as an individual decorative luminaire in different lengths, including perpendicular corner elements. Choose between white and black for the profile. The inserts optionally have a colour rendering of up to  $\text{CRI} \geq 98$ . In addition, the light inserts themselves can be selected in the light colours 2700 K, 3000 K, 4000 K, or as a Tunable White option.

**ES** Acentuación elegante del espacio con el máximo rendimiento: LINEA system es una luminaria minimalista pero versátil, apta para la iluminación refinada de paredes, suelos y techos. El perfil extraordinariamente estrecho se completa con diversos elementos de luz. La fijación a la cara superior y/o inferior del perfil se realiza magnéticamente, por lo que los elementos pueden intercambiarse con toda facilidad. Es posible combinar entre sí distintos modos de proyección, por ejemplo, utilizando un difusor opal para un alumbrado homogéneo, un Wall Grazer para la acentuación de paredes o la iluminación asimétrica para el tamizado de suelos o techos. LINEA system se ofrece en tres longitudes como luminaria individual decorativa o en una versión de sistema con elementos de esquina rectangulares. Los perfiles están disponibles en color blanco, negro y colores especiales. Por su parte, los aparatos pueden elegirse en temperaturas de color de 2700 K, 3000 K o 4000 K y sustituirse en cualquier momento en función de las necesidades.

## LINEA system wall

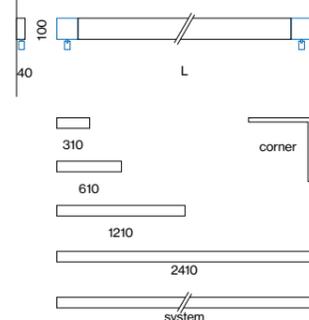

EN Luminaire housing and front cover from extruded aluminium profile, angular version; no visible screws; designed for continuous lighting systems, 90° angle connectors for flexible system design; surface powder coated; suitable for wall mounting; homogeneous wall or ceiling illumination through uniform direct/indirect light distribution; HPO (High Performance Opal) cover for uniform illumination; or with specially computed, asymmetrical lens for homogeneous lighting intensity (installation optionally for floor or ceiling illumination); energy-efficient LEDs with very good colour rendering; optionally JUST 26 spotlight module can be installed

ES Cuerpo de lámpara y cubierta frontal de perfil extrusionado de aluminio, versión poligonal; sin tornillos visibles; diseñado para sistemas de iluminación continuos, conectores angulares de 90° para el montaje flexible del sistema; superficie con recubrimiento de pintura en polvo; apropiada para montaje pared; iluminación homogénea de la pared o bien del techo mediante distribución uniforme directa/indirecta de la luz; difusor opal de alta calidad que proporciona una iluminación uniforme; o con lente asimétrica de cálculo especial para intensidades luminosas homogéneas (montaje para la iluminación del suelo o del techo); LEDS de alta eficiencia que proporcionan una alta reproducción cromática; compatible con inserto de foco JUST 26
